Handsome Presents Given Free of Charge.

STEM-WINDER, STEM-SETTER!
WE WARRANT EVERY WATCH!

We wish to have for every Man, Boy and Child visiting our Mammoth Clothing House this spring an advertisement and will give away, commencing THURSDAY, MARCH 24, free of charge, the following handsome and costly presents. It's a cost to us, same as any other advertisement, but to you—it's entirely free of cost.

FIRST—With every sale of a Suit or a Spring Overcoat, the price of which is \$15.00 or over, we give you free of charge a guaranteed Time-keeping Watch. The Watch is a stem-winder and stem-setter and warranted to be a perfect time-keeper. If you don't want a Watch, your boy does.

SECOND—With every sale of a Suit or Spring Overcoat, the price of which is \$10.00 or over, we give you free of charge the Fine Double Roller Escapement Clock, made and warranted by the celebrated Parker & Whipple Co.

THIRD—With every sale of a Boy's Suit or Spring Overcoat or with any Man's Suit or Overcoat, we give you free of charge a Handsome Pocket Knife.

Our goods will be sold cheaper than you can get them elsewhere in the wide world, and then, if you ask for it, you get a handsome present. Asking is the only condition, and they must be asked for at time of purchase. The present is what you get for reading our "ad."

MISSING WITNESS

Soule, the Missing Witness in the Chicago Investigation is Discovered at Omaha.

An Independent, Anti-Trust Sugar Refinery to be Started at Philadelphia.

Colored Murderer Hung in Louisville for Killing His Employer; He Dies Coolly.

CHICAGO, March 25.—A Tribune special from Omaha, Neb., says: "Fredrick A. Soule, the missing witness in the Chicago investigation, is discovered at Omaha. He was arrested there on Thursday last week of murder in the first degree. Yesterday a motion for a new trial was argued and overruled and at 10 o'clock this morning the court ordered the sheriff to bring Gano into court to receive his sentence of death. On going to the jail the prisoner was discovered in the agony of death. He had poisoned himself, thus fulfilling his threat that he would never hang."

Borrowe Preparing a Statement. NEW YORK, March 25.—Mr. Borrowe and his friend Millbank landed from the ship this morning and went to the home of Borrowe's father. Both denied that they knew in advance of the publication of the correspondence between Drayton and Borrowe. Borrowe declined to answer a question whether he intended to meet Drayton on the field of honor or not. He emphatically denied undue intimacy with Mrs. Drayton. Drayton spent the night at the residence of his friend Dr. Derry and this morning went to the office of his lawyer, Stephen P. Nash, where he was closeted for a long time. It is understood that he is preparing a statement for publication.

Will Arrive Earlier Than Expected.

VICTORIA, B. C., March 25.—It is reported that Rear Admiral C. F. Hotham, B. C. commander in chief of the British Pacific station, has sent a cable dispatch to Esquimaux that the war ships Melop and Esquimaux will arrive here within a few days. It is also reported that the Esquimaux will arrive here within a few days.

Meteor Explodes over Peoria.

PEORIA, Ill., March 25.—About 4 o'clock this morning a loud explosion was heard by nearly every one in the city. It sounded though a steam boiler had exploded but to the early risers it was easily accounted for. A meteor was seen to pass partially over the city and just before it passed out of sight it exploded with a deafening report.

THE CITY COURT.

The municipal court had only two offenders to deal with this morning. Wm. Ryan and Guss Johnson. Both were plain drunks and pleaded guilty, and the court sentenced them to jail for ten days each.

WIFE MURDERER KILLS HIMSELF

Poisoned Himself in Jail, as he had Threatened.

MOUNT GILBARD, Ohio, March 25.—Ren Gano, the wife murderer, is dead. He was convicted Thursday of last week of murder in the first degree. Yesterday a motion for a new trial was argued and overruled and at 10 o'clock this morning the court ordered the sheriff to bring Gano into court to receive his sentence of death. On going to the jail the prisoner was discovered in the agony of death. He had poisoned himself, thus fulfilling his threat that he would never hang.

BLAND CONFIDENT

Still Hopes to Carry His Bill; Members Went Back on Their Pledges.

The Kaiser to go a-Hunting; Wishes to Let Berlin Cool Down.

Seals in Parliament; Government Considering Its Reply; Correspondence Promised Monday.

WASHINGTON, March 25.—After the adjournment of the house this morning Mr. Bland was asked by a Post reporter how it came that the vote on the silver bill was so close.

"I must admit that the vote was a surprise," he said. "There were men who had pledged themselves to support the bill, but when the time came they failed to keep their pledges. True, there were some silver men absent, but the same may be said of the opposition. I expected a majority of about 20 in favor of the bill, but the vote was 150 to 140."

"But do you expect the bill to ultimately pass the house? Mr. Bland, but his friends lacked that confidence which was manifested in all he said up to the time of the vote. He has been awakened to the realization of the fact that perhaps after all anti-silver had a stronger following than he had given it credit for possessing."

THE KAISER BETTER.

To go on Hunting Trip; Still Avoids Berlin.

BERLIN, March 25.—The best evidence is the fact that he is getting ready to go on a hunting trip. He has sent for his weapons which include a hunting rifle and a revolver. He has also sent for his game warden and his hunting dogs. He is expected to leave Berlin in a few days.

BERKING SEA IN PARLIAMENT.

Government Still Considering Its Reply; Correspondence to be Given Monday.

LONDON, March 25.—In the house of commons today Louis J. Jennings, M. P. for Stockport, in accordance with notice given yesterday asked the government whether in view of the gravity of the news from Washington published in the newspapers it was advisable for the government to inform the house of the import of the latest dispatches from the sides in the Berlin sea matter.

The Right Hon. James W. Lowther, parliamentary secretary of the foreign office, replied to Mr. Jennings. He said that the treaty providing for arbitration was still before the senate of the United States and that the communications which passed between the two governments during the past few weeks would be printed and delivered to members on Monday next. The government was considering the reply of President Harrison to the last note from the British foreign office. It was expected that the senate was expected to give the ratification of the arbitration convention.

Bunco Robber Convicted.

ALBANY, N. Y., March 25.—The jury in the O'Brien case came into court at 10 o'clock this morning and rendered a verdict against the famous bunco robber in the third degree. The defendant was the result very coolly. Exceptions were taken by the defense and a delay of two days in passing sentence was asked. The court at first was not inclined to acquiesce, but finally granted the request. The maximum sentence for robbery in the third degree is 10 years. O'Brien will be sentenced on Monday. He was indicted for larceny in 1889 and again for robbery in 1891 and extradited from England on that charge after a long legal fight. The crime for which he was this morning convicted was for robbing J. M. Peck, an old resident of this city, out of \$10,000 on Jan. 18, 1890. O'Brien claimed that he won the money playing cards with Peck, but the evidence plainly showed that it was a clear case of robbery. Judge Glute will, it is said, pass the extreme sentence of the law upon O'Brien.

WE DO NOT WIN.

An Old Suit Decided Against the City.

Word has been received from St. Paul that in a very important case just decided yesterday by the supreme court, important in its effect to Duluth at least, and it settles finally a question which for a long time has been pending. The case which is decided against the city is the old "Sixth avenue" case, and involves the right of the city to extend the avenue to the water front and to use its extension as a dock front. The land through which the street would pass is claimed by the St. Paul & Duluth railroad, and the controversy over the title to the property is of some years' standing.

Original by the city began proceedings in condemnation to recover the land which it was desired then to use as an approach to the water. The condemnation proceedings were carried through and an award made by the jury in a very small sum, but the tender of the amount of the verdict to the company as required by the law was omitted and when the time came to use the land it was found that for this reason the case was tried before Judge Stearns and after a hard legal fight a decision was rendered in favor of the city. The case was appealed and some time ago was tried at St. Paul, Mr. Allen appearing for the city. The decision of the court of last appeal has just been announced and it is against the city. The property is declared to belong to the railroad corporation and now Duluth wants a street through it. They will once more have to begin condemnation proceedings.

In the Courts.

A protest has been filed in the office of the district court against the assessment for park purposes made by the board of public works against the following property: Block 117, Portland division; blocks 88, 110, 106, 114, 115, 117, 118, and lots 2, 3, 4, 5, 6, 12, 13, 14, 15, 16, block 111, Endon division. The assessment is protested on the ground that it is unfair and illegal and the court is asked to refuse to confirm it. The property owners who object are J. D. Ray, estate of W. Norton, Ann F. Norton, W. F. Norton, estate of G. W. Wilsiger, S. M. Chandler, D. A. Petre, A. McComber and D. E. Richards.

In the United States court W. W. Case et al have begun suit against L. C. Black et al to quiet title to lot 3, section 3-6-12, in which the defendant claims some interest. The property is valued at \$8000.

To the Range.

A. E. Humphreys was the host at another excursion which started for the Mesaba this morning. Among the party were Proctor Knott, Gen. Hayden, Robert Carr, Messrs. Stratten, Singesser, O. H. Kinney and a number of others including some newspapermen. After the return from the visit of inspection to the Mesaba the party will be made by Gov. Knott to develop the plan which brought him to Duluth.

The personnel of the party was as follows:

O. D. Kinney, A. W. Jones, C. E. Lovett, G. S. Howe, C. P. McElwain, J. A. Bledsoe, C. G. Brown, J. E. York, Geo. Atkins, of Duluth; Geo. P. W. Wilsiger, of Duluth; J. Stratten, of Duluth; J. Kinney, of Duluth; Col. Robert Carr, of Duluth; J. D. Ray, of Duluth; S. M. Chandler, of Duluth; D. A. Petre, of Duluth; A. McComber, of Duluth; D. E. Richards, of Duluth.

Three Persons Burnt.

ADRIAN, Mich., March 25.—This morning while Mrs. Henry Lards, wife of Turkey Lards, of the county, was cleaning the carpets of one of the rooms of her home on Erie street with gasoline, a gasoline stove in an adjoining room exploded. Her two children, a boy of two and a girl of three years were in the room with her. In an instant the room where the mother was at work upon the carpet was ablaze. The clothing of all three became ignited and the mother and older child ran screaming into the yard, forgetting the little boy. Neighbors came to the rescue but not until the clothing had been burned off the mother and little girl. The little boy was burned to a crisp. Mrs. Lards and the girl are thought to be fatally burned.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.
March 25.—The area of low pressure which has
been over the Northwest for the past few days
is moving slowly eastward, and is now central
over Illinois. It was thought previously that it
would bring rain to this section last night, but
it did not, although a fine rain fell at St. Paul
and had been at Marquette and St. Marie during the night.

Temperatures remain nearly stationary, have
changed little since yesterday. Few stations
report below freezing, and from that it ranges
up to 45° over the South.
The highest point reached yesterday by the thermometer here was 45°, and from that it
went down to 35° during the night.

DULUTH, March 25.—Local forecast for Duluth
until 8 a. m. March 26: Light showers of snow;
slightly colder; fair Saturday.
H. H. BARNES
Observer.

WASHINGTON, March 25.—Forecast till 8 p. m.
(tomorrow): For Wisconsin: Light showers, fol-
lowed by clearing weather. In Saturday
northerly shifting to westerly winds; slightly
colder on Saturday.
For Minnesota: Showers, followed by
clearing weather on Saturday; winds shifting
westerly; slightly colder.
For the Dakotas: On Saturday generally
fair; northerly winds; slight changes in tem-
perature.

UNDECIDED.

The scene at the vote on the silver
bill in the House yesterday was one of
the most exciting ever known. After
the debate closed a vote was taken on a
motion to lay on the table Mr. Bland's
motion to order the previous question on
the passage of the bill. An affirmative
vote would be in effect a defeat of the
measure. After the vote had been taken,
but before the result was announced,
Speaker Crisp asked to have his name
named called and voted "No." This left
the count 148 to 148, and the motion fail-
ing of a majority was declared defeated.
Other votes were taken but the oppo-
nents of the bill proved unable to kill it
by a motion to table, while its friends
were unable to force the bill to a final
vote.

Of the Minnesota delegation, Castle
and Hall, Democrats, and Lind, Republi-
can, voted to table, or, in effect, against
the bill; Harries, Dyer and Halvorson,
Alliance, practically in favor of the bill.
The Wisconsin delegation, with one
exception, voted against the bill, which
now goes on the calendar, but the com-
mittee on rules will have power to carry
it to a vote.

It is impossible, at present, to predict
with any certainty the final result. The
friends of the bill are no doubt stronger
than these votes would indicate. A good
many Democrats who favor the ultimate
passage of the measure, see that to press
it at present would simply give a Re-
publican president an opportunity for
making it at the issue of the coming
campaign by a veto. They see also that
this would mean defeat for their party.

Those who are acquainted with the
life of Dr. Samuel Johnson, the literary
poet of England for a large part of the
Eighteenth century, will recollect on
what terms of intimacy he lived with the
Thirls. The husband was a rich brewer
and after his death his widow, a lively
little body for whom Johnson had a great
regard, married an Italian music teacher
named Pizozzi. It was considered an
awful misalliance, and she was cut by
Johnson and all her English friends.
Mr. and Mrs. Pizozzi soon left for Italy
and she wrote a journal of their wedding
tour from which extracts have just been
published by the Scribners. It seems
that Pizozzi was of a respectable Italian
family, and when the couple arrived in
that country they were well received.
The only trouble was that the Italians
could never quite understand how Mrs.
Pizozzi could be a lady when her former
husband had been a brewer. There it
was Pizozzi, if either, who lost caste by
the marriage.

Whether the Standard Oil monopoly is
really dead, or whether, like the Mo-
mon religion, it is only sleeping, is being
much discussed. It should hardly have
been allowed to die a natural death, for
its methods were those of the modern
"trust" and thoroughly dangerous to the
interests of the public. It encouraged
dishonest railroad dealings by securing
unfair advantages in freight, and it
killed competition by that and other
methods now familiar in the history of
monopoly. The Chicago Iron-Ocean
assumes that the final dissolution of this
trust is a triumph of republican institu-
tions. What the dissolution of this trust
would seem to us to mean is this—that
so thoroughly has the Standard Oil
monopoly crushed competition that even
if the law shall hereafter be fairly ad-
ministered, it can no longer weaken its
power, and hence the seeming yielding
of monopoly to law.

The difficulties under which journal-
ism labors in Germany is illustrated by
the recent prosecution of seven or eight
papers for attacks on the Emperor.
The prosecutions were not started by the
public prosecutors, nor even by their
managing clerks, who were then taking
their vacations. "The true
author of these prosecutions," says the
Tribune correspondent, "was the office
boy, and he has been away and cannot
be found. It is not alleged, however,
that any of the prosecutions have been
quashed. What we are told is that they
would be withdrawn if some responsible
minister would say he disapproved of
them. The responsible minister has
thus far omitted to make this remark."

PATRIOTISM NOT PARTY.

The question of free-coinage should
be one of patriotism not party. That
was a very significant colloquy in the
House debate yesterday, between Repre-
sentative Harter, of Ohio, and Repre-
sentative Livingstone, of Georgia. Both
are counted as Democrats, yet, because
Mr. Harter said he should not vote for
David B. Hill for president if he was for
free silver, Mr. Livingstone retorted, in
effect, that Harter was no Democrat.

Let us see exactly what Mr. Living-
stone requires of those whom he calls
Democrats. Nine out of every ten of
the intelligent portion of the Democratic
party in the East believe that the pas-
sage of the silver-coinage bill, or any
similar measure, would plunge the fi-
nances of the country into chaos, would
inevitably result in the partial repudia-
tion of honest debts, and would entail
upon us the evils of a fluctuating cur-
rency which would render all values
uncertain.

What does Mr. Livingstone, of Georgia,
consider the duty of Democrats who
believe that? Does their allegiance to
their party require them to plunge their
country into the slough of a depreciated,
fluctuating currency? Certainly not.
Of old, the Democracy were the hard
money party. Free silver coinage has
hitherto formed no part of their creed.
Is it to become the test dogma of the
Democracy?

The Democrats of the South seem
about repeating a very old error of
policy. They propose to dictate the poli-
cy of the party because they usually
furnish a majority of its representatives
in Congress. They forget that there are
a great many more Democrats north
than south of Mason and Dixon's line.
About forty years ago the Southern
Democrats tried the policy of seceding
from the party so as to leave no Northern
Democrats in it. Their experiment was
not a success. Do they propose to re-
peat it?

A peculiar counterfeit is in circulation.
It is a silver dollar, as like as the coun-
terfeiter's art can make it, to the stand-
ard dollar. It contains just as much
pure silver and it bears the same pure
inscription, "In God We Trust," yet it is
a cheat; and if the man who counterfeits
it were caught, he would be punished.
Yet, if the Blind bill passes, every man
can carry 60 cents' worth of silver to any
United States mint and have it coined
into a silver dollar, which will be a legal
tender, for the payment of all debts.
Why should the government punish one
cheat and aid the other?

The Chicago Times is already assum-
ing that the investigation into city cor-
ruption is partisan in its character—that
a few small democratic fish are captured
while the big republican sharks escape.
This much is certain, that the chief
bloods have not yet been caught, and
it is generally believed that they will
prove too strong for the net justice has
thrown around them.

In spite of doubts and denials it seems
certain that the strike on the Canadian
Pacific is to be settled by arbitration. It
seems, also, if the newspaper reports are
to be credited, that the employees of the
road had been overworked and under-
paid and that, consequently, the strike
had just ground.

Dundas White Caps have ordered a
correspondent of several St. Paul and
Minneapolis papers to leave the town or
expect a coat of tar and feathers. One
would suppose that everybody who has
been libeled might have a better remedy
against the newspapers' publishing the
libels.

A Correction.
In the daily editions of The Duluth
Evening Herald of March 10, 11, 12,
1892, and in the weekly edition of March
16, 1892, certain statements were made
in reference to the prosecution in the
United States court at St. Paul of Mr.
W. F. Henry, of Duluth, and the part
taken therein by Postmaster Howard of
this place. These statements were
partly matters of fact which were cor-
rect, and partly matters of opinion which
were not. This paper is still pre-
pared to stand by. So far as the ar-
ticles referred to state that Mr. Henry's
trial was continued until March, that a
request that he be tried in Duluth was
refused; that E. A. Campbell accom-
panied by John D. Gill, Mayor d'Au-
mont, ex-Mayor Sutphin, C. A. Towne
and E. L. Fisher went to the postoffice
at 6 o'clock on the evening of March 10
and there found certain stubs, of the de-
struction of which Mr. Henry had been
convicted, they are true, and nothing in
them is withdrawn. But misled by a
feeling of sympathy for Mr. Henry, a
young man of previously unblemished
character, struggling to clear
himself from charges of a serious
and damaging nature, The Herald
used certain other language which we
feel was unjust to Postmaster Howard.
Nothing was said in this paper, but in
good faith, and on what was considered
at the time adequate information, but
things were said which ought to be re-
tracted and which we therefore re-
tract. We feel that it was unjust to Mr. Howard
to accuse him of perjury, or of lying on the
witness stand, or of wilfully endeavoring
to convict Mr. Henry, or of testifying
under oath to matters of which he
had no knowledge, or of any other in-
tentional effort to send an innocent
man to the penitentiary. The state-
ments also made as to the testimony
on the Henry trial, and as to the part
taken by the indictments in that
case were perhaps unfair
in that while true in the main, they did
not do justice to both sides of the case.
Other reflections on the character or
ability of Mr. Howard in the above-
mentioned articles were uncalled for and
unwarranted.

In this writing we do not mean to
prejudice the case of Mr. Henry or ex-
press any opinion in regard to the mat-
ters at controversy between him and Mr.
Howard. In every case where the test-
imony of two witnesses is diametrically
contradictory, a possible solution is that
both of them are honest and both are
mistaken. It is to be hoped that this is
the case in the case of Mr. Henry and
Mr. Henry. However, the fact that this
is not the time or place to discuss
their differences. They are a matter of
purely private concern, to be left to the
determination of the court. This article
is simply written to say that The Herald
withdraws any charges heretofore made
against Mr. Howard.

POLITE BUT FIRM.

We Cannot Honorably Refuse to Pro-
tect Our Property in Bering Sea.
WASHINGTON, March 25.—The Presi-
dent has transmitted to congress the en-
tire correspondence regarding the Bering
sea matter. The following is his letter to
Sir Julian Pauncefote signed by Acting
Secretary Wharton:

Mr. Wharton to Sir Julian Pauncefote
—Department of State, Washington,
March 25, 1892.—Sir: I am directed by
the President to say that your note, dated
the 19th instant and delivered on the 20th
instant (Sunday), has been given the most
attention, in view of what he deems to be
the extreme urgency and gravity of the
matter under discussion. The urgency
grows out of the fact that much further
prolongation of this discussion will make
any modus that may be agreed upon in-
effective to protect the interests of the
United States, and will give to the
Canadian sealers practical immunity, by
reason of the impossibility of communicat-
ing to them the agreed restrictions. It is
known to this government that the sealers
have based their departure upon the
escape notice of a possible modus, and that
every day almost adds to the fleet that
must now be overhauled at sea. Already
47 Canadian vessels have cleared for the
sealing grounds (as against 31 at the
same date last year) and are engaged in
following up and destroying the seal
herds.

These vessels will, if not stopped and
turned back at the passes, go into the
Bering sea and pursue to the very shores
of our islands the slaughter of the
mother seals seeking the accustomed
rookeries to be delivered of their young.
This is a crime against nature. The
government expects to show, if the arbi-
tration proceeds, that female seals con-
stitute the larger per cent of the catch
of the pelagic sealers. That in view of
this serious and confident contention of
this government, his lordship should as-
sume the responsibility of such a course
of seal sealing is not necessary to prevent
an undue diminution of the seal herds
and should insist that, pending an arbi-
tration, it should go on precisely as if no
arbitration had been agreed upon, is as
surprising as it is disappointing.

If her majesty's government so little
respects the claims and contentions of
this government as to be unwilling to
order for a dispute of the Wisconsin Cen-
tral lines are located. For tickets, maps, pamphlets and full

of the Delagoa bay agreement with
Portugal. It is not four years old, but
less than one, the date of signing being
June 13, 1891. If the present treaty is
promptly ratified and executed, our mu-
tual interest would be a simple guaran-
tee against delay. The President di-
rects me to say that the modus of the
last year is the last that this government
can accept in reason. The constraints
after a treaty of arbitration should be
more absolute, not less. He does not de-
sire to protract this discussion and hav-
ing now in the most friendly spirit sub-
mitted the considerations which sup-
port the just command of this govern-
ment, that the property which is the sub-
ject of an agreed arbitration shall not be
subject to spoliation pending the arbitra-
tion, he expressed the hope that Lord
Salisbury will give a prompt and friend-
ly assent to renew the modus.

The President will hear with regret
that her majesty's government continues
to assert a right to deal with this subject,
precisely as if no provision had been
made for a settlement of the dispute;
and in that event this government, as
has already been pointed out, will be

same basis, and to use every means
in its power to protect from destruction
or serious injury property and in-
dustrial rights which it has long claimed
and enjoyed.

A Lumberman's Rendezvous.
This term might be applied to Stevens
Point, located on the Wisconsin Cen-
tral line, at the gateway to the vast forest
region which extends North to Lake Su-
perior, a distance of 200 miles without a
break, on account of its vast lumber in-
terests. The Wisconsin river to which
the lumbermen have given the familiar
and somewhat affectionate title of "Old
Wisconsin," not alone acts as a lumber
feeder to the city by furnishing through
its numerous saw mills an outlet for
thousands of acres of pine in the upper
country, but it furnishes a water power
to the city of Stevens Point, and
Menasha, which cities are also lo-
cated on the "Central." Millions of feet
of lumber are cut every year, giving em-
ployment to hundreds of men. In addi-
tion to the lumber trade, it has numerous
other manufactures; it is here where the
Central line is located.

SURE STRENGTH-GIVER.

A Simple Remedy that Ban-
ishes Weakness.

The Best of Athletes and Physicians
Agree in Their Advice.

Feelings of Depression Disappear; The
Muscles Made Strong.

"It is wonderful," said one of the best-
known physicians in town yesterday
"how many people are suffering from
weakness and general debility."
"No person need be weak. And yet
there are many whose bones ache with
weakness, who are tired all the time,
can't sleep well, have no ambition, lack
appetite, and are troubled in other ways.
These are common symptoms of spring.
"There is a simple remedy, and yet a
thoroughly scientific one, that will com-
pletely break up the worst case of this
spring sickness. It is Paine's celery
compound, and my opinion as to its
value is based on large personal experi-
ence and the endorsements of such men
as George Wright, the authority on ath-
letics; Dr. J. H. Hanford, the eminent
medical writer; Mayor McShane, of
Montreal, and others whose names I do
not now recall.

"It should be remembered that this
compound is entirely different from the
ordinary sarsaparilla, nerverines and bit-
ters so largely advertised as 'spring
medicine.' For its discoverer was Edward
E. Phelps, M. D., L. D., for years the
most eminent professor at Dartmouth
college. You need no physician's pre-
scription to get Paine's celery compound.
Any reputable druggist has it for sale,
and he will tell you that it is pure, harm-
less and effective, and a medicine that is
used freely by his best class of trade."
"As I said, my belief in this compound
is not theoretical. It is founded on a
constant use of the remedy in disorders
of the blood and nerves for some time
past. In many instances I recommend
my patients to get half a dozen bottles
to start with, for in obstinate diseases it
is necessary to use the compound freely
and faithfully and so completely eradi-
cate the disease germs from the system.
This is desirable, for the last drop in the
sixth bottle is as full of curative power
as the first dose used, the compound
being perfectly.

The nerves need food, the brain de-
mands nourishment, the blood must be
enriched, and the excretory organs
must be stimulated; and in this common
condition, which I may say is serious,
there is nothing so certainly good as
Paine's celery compound."
Inquiry at the leading drug stores
showed that this physician was not alone
in his opinion, for without exception the
druggists confirmed his views. They
stated that the compound had effected
wonderful cures, and that it was having
an extraordinary sale.

MESABA IS THE MASTER

An Expert Sent to Investigate Cuban Iron Mines Makes His Report.

The Mines are Rich and May Compete on the Coast of the Atlantic.

But in the Interior the Cheapest Ore Will Come From the Mesaba.

George W. Gutz, a well-known consultant metallurgical engineer well known here, whose home is in Milwaukee, recently accompanied a party of Eastern mining men to the Cuban ore deposits in the capacity of an expert. Mr. Gutz arrived here Saturday, having been gone about a month.

"The iron ore deposits," said Mr. Gutz, "are on the Sierra Maestra range of mountains, which run along the south-eastern coast of Cuba. They are within 25 miles east of Havana. There are three large ore bodies. The Juraguero iron company has been working on one of them for about eight years, and now has everything in full operation. Over 300,000 tons were shipped last year, and at present about 200,000 tons are being mined daily. The Bethlehem Iron company and the Pennsylvania Steel company are largely interested in the Juraguero company. The other two companies are the Spanish American, in which Charles L. Colby and his associates are interested, and the Siga iron companies. These two have been at work only about a year and consequently their ore deposits are not fully developed. They are, however, building roads to their properties, which are from five to eight miles inland, and are putting up breakwaters and docks on the coast. Cleveland men are interested in the Spanish American company and the Siga is controlled by Philadelphia capitalists.

Some Formations. "The geological formation of the district is very peculiar. Syenite is the underlying rock and on this, especially along the coasts, is coralline. In many places coralline rocks such as corals, etc., have been broken through the syenite and have marbled the carbonate of lime. These coralline rocks have also been the source of the iron for the ore deposits.

We first visited the property of the Siga company. The hills there are strewn with immense boulders of rich ore, most of it averaging over 60 per cent iron and being very low in phosphorus. From here we went on horseback over the mountains to the property of the Spanish American company. Here we were shown many thousands of tons of ore on the surface in the form of boulders, was under many obligations to Capt. Dickinson, who is employed by this company, and who will be remembered by all the old Lake Superior miners. He has a very pretty home there. From the front door he can look out over the Caribbean Sea, while in the rear the huge syenite mountains are in sight. Then we continued our journey on horseback to the Juraguero mines, where we found everything in operation as I have already described. Thence we went back to Santiago de Cuba.

"Cuban ore will find a market along the Atlantic coast, but it cannot be brought west of Cuba in competition with Lake Superior ore. A freight rate of not less than \$1.75 a ton has been made, and this is a very heavy load. The wages there are about 75 cents a ton, and the laborers are naturally Cuban and negroes. They are naturally lazy and then the climate will not permit of such hard work as is expected of a laborer in the North. Notwithstanding the low wages, the cost of labor is about the same as here when it is taken into consideration that a man there can perform nearly as much as a laborer would perform here. Consequently Cuban ore will not enter into competition with the Alleghenies with the product of the Mesaba.

Mr. Gutz says that in the day time it is unbearably hot in Cuba, but after sunset the radiation from the earth causes it to become quite comfortable. A light on the coast becomes very comfortable. A large proportion of the "machetas," which every Cuban woodsman carries to cut away the underbrush, are made by the Collins firm in the East, and the rest come from Germany. German earthenware, glass, and both sides of a favorite utensil, and cane-seated chairs from Vienna are in common use. In one country store the travelers found a bottle of beer and they were able to get it for the low price of 25 cents a pint bottle. Mr. Gutz found that the whole of the English "tramp" steamer which took him to Genueva, where he found a large fleet of American vessels, is made by the considerably in advance of the other members of the party.

GO FOR GUYVER.

The St. Louis Delegation for Grover and Mr. Brown. The democratic convention of yesterday, peaceful as it was opening, was not destined to close without the semblance of a difficulty. As stated in The Herald the delegates elected were J. P. Grierison, H. F. Green, T. T. Hudson, J. C. Campbell, J. M. Martin, Simon Clark, and Morris Thomas. Only one ballot was necessary for their choice. They were instructed to vote at St. Paul for a delegation favorable to Grover Cleveland and to use their efforts to secure for Mr. Brown a seat in the national convention at Chicago. On this last point there was a difference of opinion which resulted in some rather spirited debate. It all grew out of a motion of Mr. d'Auremont moving the "unit rule" on the rock on which so many party conventions have split. Mr. d'Auremont moved that the whole vote of the St. Louis delegation should be cast with that of the majority of the delegation. St. Louis county has said it had a right to be heard and should have a weight of influence that would be felt to be effective. This could result only from united action and that could be secured only by a unit rule. There were no number of delegates who did not say anything against Mr. Brown, but who seemed strongly opposed to the passage of the resolution. Their argument was the one with which the unit rule has always been fought that every delegate has a right to his opinion and a right to vote as he thinks. Mr. d'Auremont's motion, however, was carried 22 to 14. The convention adopted the following resolutions:

We, the democratic party of St. Louis county, in convention assembled, do adopt the following platform: Resolved, That we cordially endorse the dem-

At the directors' meeting of the Conservative Investment company held Wednesday evening, the following officers were elected: President, F. S. Wardwell; vice president, S. L. Frazer; secretary, C. E. Richardson; treasurer, H. G. Cable; auditor, W. E. Wright. The affairs of the company are in a highly prosperous condition.

The People's Savings bank has inaugurated a system, which so far as Duluth is concerned, is original, and will probably prove a taking feature. It proposes to place in the family of each of its patrons a bank in which the "savings" may be left to be called for at intervals by the bank messenger. The system is similar in its workings to one already in successful operation in Detroit.

The proposed debate between Moses Hull and Rev. E. O. Sharpe having failed to materialize, Mr. Sharpe will on next Sunday evening lecture at the Christian church on "Spiritualism in Doctrine and Practice." All who have been inclined to favor Mr. Hull's views are cordially invited to "hear the other side."

WILL REPORT IN FAVOR

Duluthians Return Home From Detroit and are Much Elated at the Prospect.

The Engineers, They Say, Will Report in Favor of the Bridge Over the Canal.

Secretary Thompson and Capt. Miller, From Washington, Return With the Party.

The delegation which has been representing Duluth's interests in Washington and Detroit returned home over the Wisconsin Central this noon. In the party were Capt. Miller and Secretary Thompson recently, from Washington Alderman Long, President Truelsen, of the board of public works, and City Attorney Smith. All seemed more than pleased at the success of their trip and seemed to have no misgivings as to what the final result will be. There is not a single one of them who has not expressed himself as satisfied that Duluth will gain every point asked. No one in the party was in better humor than President Truelsen. "I have no doubt," he said to a "Herald" reporter, "that permission to build the canal bridge will be obtained. We made out a very strong case and the opposition did very little. The hearing before the government engineer board lasted three days and was a very thorough one. We were not caught at a single point. Engineer Waddell was with us and could, and did give a satisfactory explanation for every objection that could be raised. The most searching questions of course come from the army engineers, but he was able to demonstrate to them by means of working plans which he had with him that the bridge, although entirely novel in its idea, was capable of successful operation, and that in practice it would be no serious obstacle to the lake traffic at Duluth. I think the engineers were much pleased with the showing he made and the clearness and accuracy of his explanations. This bridge, if permitted to be built and if successful in its operation, will make him famous."

The rest of us confined ourselves more to a statement of the necessity of the bridge in the interests of the welfare of Duluth and to a review of the general commercial situation. The vessel men did little more than make a "general kick". They had really nothing to urge against the points made by us, as we admitted the great value of the lake commerce centering here and did not deny its beneficial effect upon the future welfare and growth of Duluth. The technical objections made came almost entirely from the engineers. They of course expressed no opinion but I am satisfied that we will be successful. I expect a discussion in the matter some time next week though it may be a little later."

Capt. Miller corroborated every word said by Mr. Truelsen and expressed himself as very well satisfied with what had been accomplished at Washington. There was no doubt but that Duluth's interests at the capital have been well represented and that Mr. Miller has reason to feel satisfied with his trip. Mr. Thompson, too, expressed himself as highly delighted at the results already attained and in prospect. Duluth has been extensively advertised and is now as well and as favorably known at Washington as any city in the country. Mr. Thompson's interest, of course, has largely centered in the matter of deep waterways for the lakes and while, perhaps, not all has been accomplished that might have been hoped, enough has been secured to make the winter's work a very profitable one for Duluth, the Northwest and the lake cities in general. The river and harbor bill will pass in substantially its present form and appropriation for Duluth harbor is not likely to be cut down. The discussion of this winter, and in large measure Mr. Thompson's individual effort has made the question of lake transportation and deep waterways one of national importance and this cultivation of a general and growing public interest in the matter is in itself a work of great value and would have repaid all the expenditure of time and money even if not one of the other valuable results had been achieved.

The James Lecture.
C. Wharton James lecture last evening on "World's Fairs" drew another large audience, who left delighted with the lecture. The subject for this evening was "The Fairs of the Future." The views presented this evening will be very fine and the lecture is said to be one of the best of those which Mr. James delivers. The lecture on Saturday evening will be "Between the Gates," illustrating the points of interest from Hell Gate to New York to Golden Gate on the Pacific coast. A portion of the time will be devoted to extracts from his lecture on the dark sides of Chicago life.

Pupils' Recital.
The eighteenth recital by pupils of Mrs. J. S. Dinwoodie took place at her residence, 115 Tenth avenue east, Thursday afternoon. The program was well rendered before appreciative friends. The performers were Mrs. S. M. Chandler, Misses Genevieve Dunning, Mattie Carey, Floy A. Palmer, Page Morris, Florence Clement, Josie Thwing, Masters Royal Bailey and Clarence Piper.

New York—Money 1 1/2 @ 2 per cent. The market was decidedly more active this morning, the sales to noon reaching \$35,000 shares. The opening was firm with prices generally higher. The advance ranged from 3/4 @ 1 1/2 per cent, the latter in Union Pacific. The strength displayed at the opening induced considerable selling and prices soon weakened. In most of the list the greater part of the early advance was lost. Richmond & West Point was especially weak, declining 1 1/2 for the common and 3 1/2 per cent for the preferred. Northern Pacific was the next weakest and after selling at 64, was hammered to 61 1/2, under some pressure to sell, but toward noon there was a sharp rally. New England advanced 1 per cent and West Point preferred recovered 3 per cent of the decline. The market at this writing is steady at a slight advance.

OPENING!

Monday and Tuesday, March 28th and 29th.

Two days which thousands of Ladies have been anxiously looking forward to, knowing full well that when our announcement appeared there was a treat in store for them which we have received from the Ladies of Duluth and adjacent cities, nor was their appreciation confined to words alone, but, as our sales record shows, was expressed by a continued and greatly increased patronage. Our business is nearly double what it was a year ago, and such an increase has made it necessary to branch out in many new lines, some of which are perhaps not connected with OUR house by the general public. We give below a few of the leading features of each Department. Read them carefully and then come MONDAY AND TUESDAY and take advantage of the privileges offered below.

A	B	C	D
SILKS, SILK AND WOOL GOODS, BLACK DRESS GOODS, COLORED DRESS GOODS.	CHALLIES (wool), Batiste and Crepes, French Flannels, Silk and Wool Flannel, Plain and Twill Flannel, and many beautiful novelties in Spring and Summer Wash Fabrics.	TRIMMINGS, RIBBONS, LACES, BUTTONS, More novelties in Trimmings than any House in the state, and the same can be said of our general line of Notions.	HOSIERY AND CORSETS. We are particularly strong in this Department, carrying a line of goods of the highest excellence and selling them all at low popular prices. FANS.
F	G	H	J
UNDERWEAR (knit) UNDERWEAR (muslin) For Ladies and Children. FANCY APRONS, and the only complete line of Baby Fittings in this city.	GLOVES, (the largest line in the state). HANDKERCHIEFS RUCHING, JABOTS, UMBRELLAS.	DOMESTICS AND LINENS, This department will beat all previous records this season, as we have put in a line of goods throughout that can not fail to recommend themselves as bargains to anyone interested in White Goods.	TOILET ARTICLES, SOAPS, POWDERS, PERFUMES, BRUSHES, COMBS, SPONGES, FANCY PINS, Etc.
K	L	M	
CLOAKS, FURS, Etc. This Department is too well and favorably known to need any introduction. Don't fail to see the New Goods at the Opening.	CARPETS, RUGS, Linoleum—shades, OILCLOTH. The magnitude of the business done in this Department and the quantity of stock is wonderful. See display at Opening.	HEAVY DRAPERIES, LACE CURTAINS, CHENILLE CURTAINS, FRINGES, Etc., surpassed by no Department in the country. See the magnificent display and ask prices.	BEAUTIFUL BOUQUETS OF CUT FLOWERS GIVEN TO EVERY LADY at OUR OPENING.

We intend that this shall surpass all previous efforts and have labored day and night to give a display throughout our Magnificent Store worthy of our patrons. The decorations, complete, will be marvellous in their beauty; the handsomest products of Foreign and Domestic Looms are to be exhibited in the most fascinating manner known to Decorators' Art. The whole to be yet more attractive by Tropical Plants, Palms and Flowers. That every lady may long remember the pleasant hour they spent in our store on this occasion, a neat Souvenir will be given to each, and as you look in wonder upon this great display don't lose sight of the fact that we want your trade from this out and will give you the best goods at the Lowest Prices to obtain. MONDAY AND TUESDAY, March 28 and 29

Store will also be open Monday evening until 9 o'clock, on which occasion salespeople will be pleased to show you goods, but NONE will be sold.

HULL VS. TALMAGE.

Some time ago, the bombastic T. De Witt Talmage delivered a philippic against Spiritualism, which he labored under the pleasing delusion would be an extinguisher of that system of philosophy; but just how much logic, reason and truth there was in that diatribe and how nearly it corresponded to the teachings of the bible and to undeniable facts in human experience, will be fully shown by MR. MOSES HULL at the Temple Opera at 3 p. m. on Sunday.

Everywhere that Mr. Hull goes, his "Answer to Talmage" is regarded as one of his ablest and most popular lectures, and by the time he closes, it is always generally conceded that, as far as the argument goes, there is not much left of Brother Talmage. This lecture bristles all through with bright and sharp things and is thoroughly enjoyable from beginning to the end; and it is also deeply instructive, as it brings out in battle array the most forcible arguments against Spiritualism and then compares them with the arguments in favor of that belief.

On Sunday evening Mr. Hull will deliver an address appropriate to the commemoration of the 44th anniversary of modern Spiritualism.

Dr. Henry Slade also Here.

This gentleman, who is perhaps the most noted of all living mediums, the one through whom phenomena have been produced which the most eminent scientists have been utterly unable to explain upon any other theory than that they are what they purport to be, viz: manifestations of spirit presence and spirit power, and who is unquestionably one of the most remarkable of living men, is already here, and he will be present at both of the Sunday services and probably on both occasions will have a few words to say relating to his remarkable experiences, and perhaps recounting some interesting facts in his personal history; although the doctor's main work here during the coming month will consist in giving private sittings to those desirous of witnessing his wonderful phenomena.

Two such attractions as Moses Hull and Dr. Slade are quite sufficient to fill the Opera House from pit to dome at from 75 cents to \$1.00 per head, but it is not so much the aim of the S. & L. Research society to make money as it is to inform the masses of the people upon an all-important subject, and hence, the admission to either of these meetings has been placed at the low price of 10 cents each. Tickets to be had at the box office. Doors open at 2:30 and 7 p. m. Meetings to commence at 3 and 7:30 p. m. sharp. As it is doubtful whether the Opera house can accommodate the multitudes who will want to attend these meetings, those desiring good seats, or seats of any kind, should go early.

of the Redpath bureau, of New York, is in Duluth today.

B. Fern, one of the pioneers and builders of the prosperous little city of Warren, Marshall county, is in the city. The St. Paul Pioneer Press speaks of Col. M. O. Brooks, one of the Mesaba iron kings, as a distinguished visitor in that city.

Dr. Henry Slade, the medium who is to speak at Temple Opera Sunday afternoon and evening, arrived in the city this morning.

Senator LaDue, of Rock county, who has one of the finest stock farms in the state, having raised several horses of more than national reputation, has just returned from a trip to the Mesaba range and is radiant with delight at what he saw. He is almost inclined to sell out his farm of Arabian steeds, incorporate an iron company and raise another kind of stock.

The Novel Method

For advertisement used by us last season called the attention of hundreds of people to our STORE and notwithstanding the fact that it resulted in great pecuniary loss on the particular article advertised, the results obtained were eminently satisfactory, in that it called to the attention of customers to the line of goods represented by the article exhibited. We shall continue to offer for sale under this **CELEBRATED REDUCTION OR SLIDING SCALE** Plan some desirable article of Furniture or House Furnishing from our mammoth stock, varying the style, kind and quality of the article as often as the preceding one is sold.

MONDAY, MARCH 28th, we exhibit in our large show window an **ELEGANT OAK CHAMBER SUIT**, labeled as follows:

A Card!

The actual cash value of this massive Oak Chamber Suit is \$100.00. (It has never been offered for less money.) Beginning with Monday, March 28, we shall reduce the price \$20.00 every day it remains unsold until it reaches a price at which you think it is cheap. Whichever does, kindly give us your order.

MESABA PILGRIMS

A Party of Fifteen, Chaperoned by George Atkins, Trip Up Over the Great Trunk Line.

Wagons, sleds and Bronchos are the Vehicles of Travel, and Gently They Jog Along.

Others Eagerly Waiting for Conveyance, But the Sun Has Kissed the Snow Away.

Although the bottom has fallen out of the sleighing on the range, the road between Mesaba station and the several interior camps presented a lively appearance yesterday, and the indications were that for several days yet it will be quite as interesting. The party, which left Duluth at 6:30 yesterday morning on an special arrived in Mesaba about 9:30, and after making a tour of the Hale, Kanawha, Cincinnati, Biwabik and Canton properties, it is miles the westward returned to Mesaba at 7 in the evening and reached Duluth again at 10 o'clock. The party was made up as follows: George Atkins, of Humphreys & Co., chaperone; D. D. Kinney, Duke of the divide, assistant chaperone; Bob Carr, of West Virginia, official story teller; Gen. W. H. Martin, of Kentucky, legal counsel and attester; Mr. J. B. Jones, of Torrance and C. W. Shepherd, of Minneapolis; T. F. Singler and F. A. Stratton, of Tennessee; Col. A. B. Jones and C. E. Lovett, of Duluth, cavendishers; James E. York, guide, philosopher and friend; C. C. Brown, C. C. Donald and J. A. Bede, broncho riders. The trip itself was therefore a most delightful jaunt, replete with novel experience and enlivened with pleasing bits of anecdote, the only regret being the absence of General Manager J. L. Graessinger, of the Iron Range road, whose duties detained him in Duluth. At Mesaba station a four horse sled, a two horse wagon and a pair of saddle bronchos afforded transport for the party. The sled had the best of it, going out and the wagon coming back, as a warm sun chased the snow away from the road, and the sleds, under the cover of the woods, were there sleighing left. The broncho is not the most lovable animal in the world, and one of the two assigned to the pilgrims, a pair of the most vicious of the breed, formed the habit of toying with his genus homo associates. He would jump in the air like a bird, strike out with his front feet utterly regardless of the Marquis of Queensberry rules, kick over the bessemer limit, and land on any party in reach. If the rider came down on the same party it was deemed a sure sign of magnetic force, as he could get there without touching. It is on this theory that George Atkins will soon organize a new Iron Range road with the brightest prospects of success.

At the mines it was the old story over again, with every new visitor surprised that Duluth people were so numerous in their claims. Mr. Stratton who has extensive interests in Tennessee and Virginia, and is familiar with all iron range developments, went down to the bottom of an 80-foot pit on the Cincinnati property, so deep he could see stars, with all the way, and the end was not yet. He was convinced. This was but a sample of other showings on the several properties, a pit visited on the Kanawha exhibiting a very high grade of ore, and enough hard among the soft so that furnaces could use it without mixing. Mr. York was gratified that he had seen the ore, and declared no one could grasp the immensity of our iron resources and the future they hold in store for Duluth. Among the advantages he noticed was the cheapness of mining because of the nearness of the ore to the surface, which in some places is only four or five feet. The Hale and Canton ores, he thought, were quite like the others, others could scarcely be distinguished from the Gogebic product. It seemed to him that the ore of the properties exhibited was as cheap as coal, and that much of the Mesaba product could be put on the cars for 50 cents, if it is so reckoned as practicable to remove one foot of subsoil for one inch of ore, and as these beds of hematite are 60 or more feet in thickness they could be profitably mined at a great depth. But they are just beneath the surface, and it is quite a great deal to be discovered. To give some idea of the amount of ore in sight let the reader take the following figures which are an understatement of the present showing: The Hale property, 100,000,000 tons. A dollar a ton is a rather low average of profits, but even at that estimate it is no means the limit of its deposits.

No. 1. Bed of ore 1300 feet long, 300 feet wide and 40 feet deep. Multiply these and divide by 10, the cubic feet in a ton. The result is 1,560,000 tons.

No. 2. Bed of ore 600 feet long, 300 feet wide and 40 feet thick. Tons of ore, 720,000.

No. 3. Bed of ore, 1000 feet long, 600 feet wide and 40 feet thick. Tons of ore, 2,400,000. Total, 4,680,000 tons.

A dollar a ton is a rather low average of profits, but even at that estimate it is no means the limit of its deposits. The excursionists yesterday were dined at the Cincinnati camp, the cook Arthur McGowan, formerly with Thurston, laying a spread that would do justice to a Carnegie banquet. The pilgrims were nearly famished when they reached the Cincinnati camp, having already inspected several properties and visited an Indian village in the forest, and their hunger was a relief to the feast. But the way they devoured the porthouse steak, fresh eggs, dotted with onions, condensed milk, creamery butter and biscuits, potatoes, coffee, and the delicacies of the season, was a caution to the natives. And then to see O. D. Kinney and Col. Jones lap the gravy off their plates quite capped the climax. As they were the big men of the party, being both over 12 feet and 6 inches tall, no one could prevent them from expressing their taste in the food. They had the freedom of the camp.

On the way back to Mesaba station the party passed through the new town of Merritt on the banks of Embury's lake, one of the most charming sites in the world for an inland city. All activity there, with over 20 buildings completed and about 30 more rising skyward. One man with a large

saloon was, putting in a big supply of beer and fully 20 more were bustling around the stumpy clearing in their individual interests. Five million feet of logs are lying on the little lake waiting for the springtime drive, while four horse teams laden with lumber come in from the station over its icy surface, now quite sloppy.

A few miles out from Mesaba Capt. Frank Hibbing was seen busy getting supplies out to the range. He expected to get several loads there tonight. An emigrant leading a cow, the pioneer vehicle of the range, was met on his way into the mining region. There was a somewhat subdued but eager and earnest look in the cow's eye, as much as to say that the condensed milk factories and all lactical fluids grow in cans, better look a little out.

Two parties arrived at Mesaba station last night to go out on the range today. One consisted of a Pennsylvania trio, F. L. Kimbrey, J. J. Spearman and W. L. Wallace, all iron men, chaperoned by John Jones, who is Kimbrey's manager for his Michigan properties. Mr. Kimbrey is the gentleman who long ago contested at Youngstown, Ohio, the title to Colorado silver property and got a judgment of \$1,250,000. He has iron mills and furnaces at Greenburg, Sharon and Newcastle. Mr. Spearman is a retired furnace man in Pennsylvania, and Mr. Wallace is also interested in the iron business at Sharon. They are spring out the land to see what effect the Mesaba developments will have on the iron market. The boys are all full jeweled but traveling in cog wheels in mud. The other party was a quintet of local statesmen and capitalists, including Sheriff Sharkey, County Clerk Sinclair, Mr. Wilcox, W. J. Richardson and Frank A. Day. They will go out on bronchos, except the sheriff who will bring up the rear on a horse. The aboriginal equines from retracing their steps with malice aforethought. They are all concerned that the time of the Champion and other properties, probably being gone four or five days. They are all regret that Amos A. Shepard was not with them to go ahead as a sort of avant courier and announce their coming.

The following table, prepared from the records of the office of the secretary of the Iron Range, shows the capitalization of the companies incorporated since Feb. 1, 1892, up to a few days ago, together with the amounts paid into the state as incorporation fees in compliance with the law governing incorporated bodies:

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
March 25.—A storm of considerable energy is
central over Missouri this morning, and the low
area that has been nearly stationary over the
Northwest for the past few days is still there
with a center near Lincoln, but will probably
be absorbed by the Missouri storm today.
Rain and snow have fallen over all sections,
being especially heavy west of here, where 40
inches fell at Moorhead, and 34 at Duluth. The
snow was also quite heavy at Marquette and Sault
Ste. Marie, and is now falling at St. Paul, while
in the Northwest the rain has turned to snow
and still continues.
Slight changes in temperature have taken
place, and it ranges from 25 in Southern Illinois
to 25 in the extreme northwest.
It is probable that the storm now over Mis-
souri will move rapidly East today increasing
in energy as it goes and drive the low area
Dakota along with it. Then if there is any cold
weather in the extreme north, beyond the
reach of the storm, it will be driven to this section,
it will undoubtedly set slightly colder, but if
there is a cold wave to the north, it cannot now
be seen.
The highest point reached yesterday by the
thermometer here was 31°, and from that it
went down to 24° during the night.
The rain and snow fall yesterday amounted to
.70 inch.

DULUTH, March 25.—Local forecast for Duluth
until 8 a. m. March 27: Threatening with rain
or snow; colder; probable rain; fair and colder. Sun-
day.

HOW TO CHECK THE GERRYMANDER.

The setting aside of the Wisconsin
democratic gerrymander by the courts is
universally approved by the press of
both parties. The Wisconsin democrat,
indeed, denies that he has done worse
than his republican predecessor, but all
admit that the practice is wrong and are
glad to see it checked.

This brings us to the point that there
should be stringent constitutional pro-
visions adopted in the states where they
are needed, and we imagine they will be
found to be needed in most. Let us take
the constitution of Minnesota, for in-
stance. The only provision we find
bearing on the subject is this: "The
representatives in both houses shall be
apportioned equally throughout the dif-
ferent sections of the state in proportion to
the population thereof." Any grossly
unequal distribution of population in the
several districts, might best be set aside in the
courts. But a gerrymander—such as
would mean the majorities of one party
in a few districts and spread the major-
ities of the other party over many dis-
tricts, could not be set aside in the Min-
nesota courts.

The provision of the federal statute
regulating the formation of congressional
districts merely declares that representa-
tives in congress "shall be elected by
districts composed of contiguous territory,
and containing as nearly as practicable
an equal number of inhabitants," thus
limiting very slightly as experience
has shown, the iniquities of the partisan
gerrymander, in regard to congressional
districts. We believe that especially in
the older states, where constitutions are
shorter and simpler, few effective con-
stitutional limitations will be found.
We know that in Connecticut, where the
boundaries of the senatorial districts had
remained unchanged for half a century,
they were miserably gerrymandered by
the Republicans in 1881.

In fact it will be found difficult to
frame any constitutional provision which
will reach the gerrymander, but the un-
fair distribution of population, the split-
ting towns and "shoe string" districts
could be prevented by appropriate
amendments.

The excellent constitutional amend-
ment which has just passed the New
York senate providing for throwing
legislative election cases into the courts
suggests the feasibility of making the
highest court in each state make all
demarcations or congressional, senatorial
and assembly districts.

Mrs. Coleman Drayton, ex Astor, is
having an enormous amount of free ad-
vertising, and cuts of various beauties,
often quite dissimilar, figure in most of
the papers with the name underneath.
If she were a quack medicine vendor, or
proprietor of some "greatest show on
earth," all this would be extremely grat-
ifying, from a business point of view.
But as a member of a "first family," she
hardly occupies an enviable position.
Messrs. Drayton and Barrowe, in the
meantime, are pictured as playing the
part hitherto taken in this country by
Mr. John L. Sullivan. Their savage
looks at each other and at the modest
interviewer, and all their goings out and
their comings in, are duly chronicled.
We must say, however, that in the line
of poignant conversation, they fall far
below the world's champion. In fact,
they must either talk bigger than they
are doing, or fight, or they will soon fall
below contempt in public estimation.

It is pleasing to see college professors
refusing to leave the institutions where
they are trained and are training others
to accept higher salaries. Professor
John W. White, of Harvard, has refused
an advance of \$3000 a year on his pre-
sent salary to go to the new university at
Chicago. None of the faculty, even of
that booming new university, gets a
quarter of the salary of some of the offi-
cers of some of the great mutual life in-
surance companies. But business talent
always commands the highest price in the
market.

The instructions preparing for com-
manders of public vessels which are to
protect our seal fisheries are said to differ
materially from those sent out last year

in one respect. It is now proposed to
extend their sphere of action to the
waters within the three-mile limit along
the entire Alaskan coast to Bering sea.
In this way the seal herd on its way to
the rookeries on Pribiloff islands will be
protected at least to a limited extent
from poachers along the entire coast
they usually follow.

The women of Chicago are taking hold
of the street cleaning question. They
have called a meeting to see to cleaning
the streets which they correctly say are
"the dirtiest in the world." If they could
also clean out the so-called Council of
that city it would be even greater than
that of cleaning the streets. But we for-
get that a city government is something
too high and holy for woman to touch.

The death of Dr. David H. Agnew of
Philadelphia, removes one of the greatest
surgeons in the country. It was he, it
will be remembered, who operated on
President Garfield for the mortal wound
of which he died shortly after. He was
eminent in theory as well as in practice
of surgery, having for many years lectured
in the great medical schools of Phila-
delphia.

The professor of horticulture at the
University of Wisconsin has issued a
circular to farmers in sections which
were infested by the chinch bug last
summer. The circular recommends that
all areas that would naturally serve
as hibernating places for the beetles be
burned over so far as practicable, as
early in the spring as possible.

It is reported that the senators have
agreed to ratify the Bering Sea arbitra-
tion treaty provided some temporary
agreement is reached for the protection
of seal while the trial and decision of
the question is pending are settled. Cer-
tainly that is a fair condition to attach
to their approval of the treaty.

Railroad influence seems to be strong
in the Iowa legislature. On Wednesday
a bill passed the House requiring rail-
roads to use union depots where such
have been erected. The day following
railroad lobbyists swarmed in on the
bill and the vote passing the bill the day
before was reconsidered.

The Thompson-Houston Electric com-
pany, which a week ago put in a bid of
\$8 for each electric lamp to be fur-
nished the World's Fair, has this week
lowered the price to \$20 per lamp. The
contract has been made with them for
3500 lights at that price.

The question of abolishing the prac-
tice of uncovering heads at funerals is
being generally advocated. Certainly
many deaths have occurred from expo-
sure in that way. Respect for the dead
should not be carried to the extent of
endangering the living.

It is said that the bodies of the 22 of
the 31 men entombed in the Hill Farm
mine at Dunbar, Pa., in June, 1890, have
been at last recovered. The company has
had a force working ever since the dis-
aster to recover these bodies.

The Durham striking miners, who, it
will be remembered, continued the strike
after the Lancashire men had returned
to work, are taking a vote on abandoning
the strike. It is believed that they will
stand out no longer.

China is said to be very indignant at
the absolute exclusion of their people
from this country. They claim that the
proposed act is in direct contravention
of their treaty with our government.

The sundry civil bill, as reported to
the House, appropriates 25 millions, about
13 millions less than was appro-
priated by the last congress for the same
purposes.

The failure of an Ohio bank with \$25-
000 assets and near half a million liabil-
ities, have caused threats of violence
against the collapsed banker.

An expedition is about starting out to
explore the Great Australian desert,
which is about 1500 miles long and 300
miles wide.

No less than 21 Italians of more or less
criminal antecedents arrived at New
York in one vessel last week.

LAKE FREIGHT MATTERS.

Some Features of the Coal Question on
the Lakes.

(Cleveland Marine Review, March 24.)
Coal producers of the Hocking valley
and Pittsburgh bituminous districts, who
have just closed their deliberations at
Pittsburgh, have settled the matter of
freights between the mines and Lake
Eric ports by reducing last year's rate
from Pittsburgh 5 cents a ton, and add-
ing 2½ cents a ton to the rate from West
Virginia mines. This makes the rates
35 cents from both the Pittsburgh and
Hocking Valley districts and 32½¢ a
ton from West Virginia. The Pittsburgh
rate was reduced on account of the com-
plaints of operators in that district that
they could not compete successfully with
the cheaper coal of Ohio. This settle-
ment of rates should be the basis for
negotiations between the soft coal ship-
pers of the lakes and the vessel owners
for contracts covering coal to go to both
Lake Michigan and Lake Superior. A
single block of about 100,000 tons of coal
for the head of Lake Superior was cov-
ered some time ago at 40 cents a ton and
a few charters for the first trips to Du-
luth were made at the same figure, and
this is all that has been done upon which
rates may be calculated. That the move-
ment of soft coal will be very large there
is no doubt.

All of the companies operating at the
head of the lakes are well cleaned up of
supplies notwithstanding the heavy
stocks taken in last season in anticipa-
tion of a big railway business. Mar-
quette dealers have been compelled
within the past week to draw on the
short supplies at Duluth, and coal for
steam purposes is being taken down to
the upper Michigan peninsula from the
head of the lake. Another week or ten
days will probably see some contracts

for the delivery of coal at Duluth,
Milwaukee and upper lake ports
from Ohio ports. The West Vir-
ginia coal referred to here
is a new factor in the lake market. Very
little of it was shipped in 1890, but last
year about 150,000 tons went out from
Cleveland and Lorain, and the increase
promises to be still larger during the
coming season. Pittsburgh operators
succeeded in having the rail rate to lake
ports on this coal advanced 2½ cents a
ton on the claim that it can be mined at
a much lower cost than the coal of the
Pittsburgh district. This is true of the
West Virginia coal but it is soft and con-
sequently not of the best quality for ship-
ping purposes.

LITERARY NOTES.

Something of New Books and Maga-
zines.

A notable feature of The Engineering
Magazine for March is its large propor-
tion of articles of popular interest. First
appears an illustrated paper on the
Perry Expedition to Greenland and the
Relief Party which is to be sent out this
summer, by Angelo Heiprin, the sci-
entific director of the expedition. Le-
ver Allen describes the "Manufacture of
Ice," by the leading methods in vogue,
and Dr. Floyd Davis deals with the
"Purification of Water," in which the
quality of ice for domestic use is also
discussed. Another notable article on
"Wordless Government Engineering" is
contributed by George V. Wisner, who
pays his respects to his critics in the
United States Engineer Corps. The
other leading articles are: "Dangers
From Tall Office Buildings," by Henry
A. Gortz; "The Yacht of New York
Harbor," by W. J. Henderson, and "The
Franklin Statue at Chicago," by Young
E. Allison.

The various departments of industrial
progress are treated by competent edi-
tors. Published from the World build-
ing, New York.

The North American Review for April
brings forward many subjects of public
concern, handled exhaustively by the
foremost men of the time. Thomas
Nelson Page, in "A Southerner on the
Negro Question," discloses, with every
mark of absolute accuracy and sincerity,
the present status of the negro in the
South, making an estimate of the negro's
capabilities. Madame Adam, who may
be described as the most conspicuous
and brilliant woman in France, writes
a new glimpse of the life and training.
"The Modern Cart of Theopis" is a
spirited account by W. H. Crane, of
the distinguished actor, of the conditions
leading up to the necessity of the travel-
ing star system, and throws light on the
evolution of dramatic affairs. Among
the shorter papers Mr. Charles Towns-
end Capeland draws with incisive touch
a parallel between George Eliot and
Mrs. Humphry Ward as novelists; and
Mr. M. A. DeWolfe Howe, in "A Piece
of Modern Philanthropy," describes the
newest method of reaching and helping
the poor.

With the April number, the Cosmo-
politan completes its twelfth volume in
a manner worthy the wide and growing
popularity of this magazine. The Cosmo-
politan is the most superbly illus-
trated of the monthlies and the pictorial
embellishment of the April number is
rather above the average. The leading
article is on "Genoa—the Home of the
Lumbus," written by Murat Halstead who
recently visited the city, and illustrated
from photographs of all the principal
relics of the great navigator which are
main in Genoa. William H. Riding is
the author of a delightful and well
profusely illustrated article on the
Crew of a Transatlantic Liner. Beside
all its other attractions the April Cosmo-
politan is rich in fiction and poetry.
"The Rancho of Heavenly Rest" is a
vigorous sketch of the Southwest, full of
action and local color. Its writer
Forbes Heermans, the author of "Thir-
teen" and more stories, Frederick
Remington has illustrated "The Rustic
Dance," a poem by Irving Bacheller,
and other verses have been written for
this number by George MacDonald,
Katherine Lee Bates, Charlotte L. Sea-
ver and Sarah M. B. Platt.

Mr. William Henry Bishop begins his
series of papers on "An American at
Home in Europe" in the April number
of the Atlantic Monthly. His first chap-
ter is on "House Hunting and House-
keeping in Brittany, Paris and the Su-
burbs of Paris." The paper is most in-
teresting, written in a lively style, and
with all the thousand "points" which a
person who lives abroad can give to
those who do not live there but who wish
to do so. A cleverly composed "trilogy"
on naval subjects will delight the lover
of things nautical—"Admiral Farragut,"
by Edward Kirk Rawson, "American
Sea Songs," by Alfred M. Williams, and
"The Limit in Battle Ships," by John M.
Ellicott. For the fiction of the number
we find some chapters of Crawford's
"Don Orsino," and a clever, ballad-
story by Henry James called "The Pri-
vate Life." "Legal Disfranchisement"
is another of those unsigned papers
which readers of the Atlantic have of
late begun to speculate about.

The common charge that New York-
ers are selfish is, to a great extent, re-
futed in a letter which Van Ghyse sends
to the Argonaut of March 21. It is on
"New York Charities," and tells of the
kindly acts of the poor and the constant
charity of those in moderate circum-
stances.

Messrs. Macmillan & Co. announce
that they have made arrangements to
add to their dollar novel series the most
popular of the novels of Charles Dick-
ens. There will be a new volume in each
volume, a short introduction written by
Mr. Charles Dickens, the novelist' eldest
son, giving a history of the writing and
publication of each book.

A Lumberman's Rendezvous.
This term might be applied to Stevens
Point, located on the Wisconsin Central
lines, at the gateway to the vast paper
region which extends North to Lake Su-
perior, a distance of 200 miles without a
break, on account of its vast lumber in-
terests. The Wisconsin river to which
the lumbermen have given the familiar
and somewhat affectionate title of "Old
Wisconsin," not alone acts as a lum-
ber feeder to the city by furnishing through
its numerous tributaries an outlet for
employment to hundreds of men. In addi-
tion to the lumber trade, it has numerous
other manufactures; it is here where the
large car shops of the Wisconsin Cen-
tral lines are located.

LIVES IN THE BALANCE.

Experience of Four Beautiful
Children.

The Story Told in Detroit by their
Mother and Friends.

A Professor's Discovery that has Set
all Michigan Talking.

DETROIT, March 26.—A most remark-
able case of suffering has recently come
to light in this city.
Mrs. M. V. Guin is a devoted mother
whose beautiful children are watched
over with the utmost maternal affection.
When the youngest was six weeks
old, a terrible eruption broke out all
over the babe. Several physicians were
consulted, and while opinions varied,
the disease was generally regarded as

called Paine's celery compound.
This was not all, and Mrs. Guin, in a
letter written in reply to a request from
one of the papers, tells additional proofs
of the marvelous curative power of this
compound. She wrote:

"My children had the gripple last fall,
and were weak and ailing all winter. I
tried physicians' prescriptions and every-
thing my friends recommended, but
without effect. I was fairly discouraged,
for they were so weak and feeble.
"But Paine's celery compound gave
them strength, a good appetite, and
made them strong and well, so that they
are now the picture of health."
The picture here given tells better
than words the good health that Mrs.
Guin's children owe to Paine's celery
compound.
She has many callers at her home, 891
McDougall Ave., to ask if the published
statements in regard to her children are
true. To every inquiry she says that
they are now the picture of health.

Without some Detroit wholesaler being
obliged to telegraph for a further supply
of the famous Dartmouth Professor's
discovery.
It goes without saying that a medicine
which is used so successfully for babies
and children, cannot contain the least
trace of any harmful ingredient. The
most delicate can use this scientific
compound and only good will result.
It possesses marvelous strength-giving
qualities that render it especially suit-
able for this season of the year, when
feelings of weakness are so common.

millinery parlors, over Suffer & Co.'s
and see the new styles of spring millinery.

Wish Him Success.
The former patrons of the Yale school
will most cordially wish its talented prin-
cipal all merited success, as he begins
his work anew. "Fortune favors the
brave." "I'll find a way or make it," is
the motto of our friend, John L. CITIZEN.

Prosperity is Coming.
The Grand Union Tea company have
removed from 25 West Superior street
to 7 East Superior street.

THE DISTRICT COURT

A Number of New Actions Involving
Considerable Sums Have Been
Begun.

Eight Cases Come up for Disposition on
the Special Calendar for
Today.

The Names of the Grand and Petit
Jurors for the Coming
Term.

The court record shows that a new
term is rapidly approaching. Five new
cases were begun today, and some of
them important ones. In nearly all the
amounts involved are large.

Bridi Hanson vs. John Hendrickson is
a suit of a rather unusual nature. The
complaint alleges that on Dec. 7, 1891,
the plaintiff and her husband, C. M.
Hanson, were living at 610 Garfield
avenue. That she was very ill, not
yet having recovered from a recent
child birth, and that the facts in
the case were such that the defendant
in a drunken condition forced his way
into the house and had a drunken
altercation with Hanson, the result of
which was serious upon the health of the
plaintiff as she was not only badly fright-
ened but suffered physical injuries as well.

It is alleged that this conduct was
repeated on two other occasions. The
plaintiff places the damages suffered by
her on account of these things at \$500
and sues to recover that amount.

Nellie Esch has at last brought her
threatened suit against the Street Rail-
road company. She alleges that on Dec.
26, 1891, by reason of the negligence of
the company, she was seriously injured
while alighting from a car at Lake ave-
nue. She asks damages in the sum of
\$500.

E. Evans vs. the Liverpool, London &
Globe Insurance company, is a suit to
recover damages sustained by the tug
Kambler by fire on Aug. 2, 1891, when she
was insured by the defendant company.
The sum sued for is \$5000.

Two other suits began today were
brought by Clinton Markell, assignee,
etc., against Forrester Bros. to recover
\$20,000 on four notes, and against R. P.
Russell for \$750 on a single note.

In the special term for today only
three cases were disposed of before noon.
In the St. Paul & Duluth Railway case
pansy vs. L. F. Woodbridge, et al., a peti-
tion for proceedings in condemnation,
in order for the appointment of commis-
sioners was made. Eliza Hart vs. E. A.
Arthur was continued, and in James
Dougan vs. J. M. Turner a new trial was
denied. There were eight cases on the
calendar for today.

APRIL TERM OF COURT

Today the Last for Filing Notes of Issue For the Coming Term.

A Heavy Civil and a Light Criminal Calendar Now Seen Probable.

Judge Brown, of the Sixteenth District, will sit in Duluth for the First Time.

Today is the last opportunity to file notes of issue for the coming term of the district court and work on the calendar is already begun. It is impossible to tell until after tonight how many cases there will be, but the indications are that the present will be a shorter term than the two last have been. The continued cases are already prepared for the printer and that part of the calendar is closed. There are for this term of the court only 50 continued cases, less than at the last term.

The calendar will contain some interesting cases. There are several damage suits for large amounts, and several cases involving Mesaba land titles, in which charges of fraud are made. One case will call up the charges made regarding the issuing of state mining leases. The calendar as a whole is one of unusual interest.

The criminal calendar promises to be light but will contain more cases than did that for the February term. There are now several prisoners in jail who are waiting the action of the grand jury. Among them, Joseph Hort charged with assault in the second degree, Longstin, similar character. The term begins on Tuesday April fifth and as usual the jury cases will be at once disposed of. The proportion of these is rather small than usual. Judge Stearns will not return before the June term at the earliest. At the coming court his place will be taken here at first by Judge Searle, who sat in February, who will remain, however, only a week, and who will be succeeded by Judge Brown, who has never before held court here. He is from Stevens judicial district. Judge Start is not expected, but some emergency may arise which will bring him up for a few days. The calendar, including criminal and continued actions, will probably contain about 150 cases to be disposed of.

CRUSHED BY A TREE.

Arthur Henry's Skull Fractured in a Lumber Camp.

Arthur Henry, who was fatally injured at Peyton, Kimball & Barber's lumber camp in Wisconsin by a falling tree on Saturday afternoon, was brought to St. Mary's hospital in this city and lingered until 9 o'clock Sunday morning, when he died. The body was removed to Durkan's morgue and his relatives at Alpena, Mich., communicated with. They desired the body be sent on for interment and it was sent there this afternoon. Considering the extent of the injuries to the back of his head, which was completely crushed out of shape, it is regarded as a miracle that he lived 18 hours after being struck.

Increased Passenger Service.

The Duluth & Iron Range Railroad company, in the course of a couple of weeks, will put two additional passenger or mixed trains on their main line. The trains would be running at present but that the company is waiting for additional coach and baggage equipment. The schedule has not been fully arranged but the train will leave Duluth in the morning about 6:30, arriving at Mesaba station at 9:30 and Tower an hour later. Returning the train will leave Tower about six o'clock, Mesaba seven o'clock, arriving at Duluth about 10 o'clock. The train will pull a small amount of freight for Mesaba and Tower but for no other points.

Not Yet.

When Mayor d'Astremont was asked this morning if he had any communications to make to the city council this evening he replied: "At present I have not, nor do I intend to, but something may turn up between now and evening which may result in one or two communications being sent in, but I have to go slow in the matter of these appointments."

Undoubtedly the handsomest store in the country is Silberstein & Bondy's as it appears in opening attire today and tomorrow.

THE MARKETS.

Wheat Very Dull and Closes Lower Than on Saturday.

day.

The market opened 1½¢ lower this morning on the first sales in May No. 1 northern and ruled dull and heavy up to noon. Early cables were weak and lower. English trade journals reported improved crop conditions throughout Europe. The increase in local stocks was large, amounting to nearly 100,000 bushels. The visible report showed a small increase against an expected small decrease. The export of wheat and flour from New York Saturday were about 120,000 bu., indicating poor foreign demand. Reports of some of the Chicago scalpers in financial difficulties did not assist the stock market to recover in any sense. The session after the noon hour was very dull and the close was slow and steady at 1¢ off on upping grades and 1½¢ off on lower grades of cash and 1½¢ off on May wheat.

Cash No. 1 hard ruled very dull, closing neglected at 78½¢, 1¢ off Saturday's price. Track wheat closed neglected at 78¢. Cash No. 1 northern had little demand, closing neglected at 77¢. Track wheat closed at 77¢. Cash No. 2 northern had no demand, closing neglected at 76¢. Cash No. 3 northern had no demand, closing neglected at 75¢. Rejected wheat ruled a drug, closing at 74¢. Cash No. 1 hard closed neglected at 77½¢.

March No. 1 northern had little demand, closing at 77½¢. May No. 1 northern had a fair amount of trading, starting with first sales at 78½¢ and closing with good demand at 78½¢. Millstuffs ruled dull, closing at 78½¢. At \$12.25 for bran and \$12 for middling in 200 pound sacks. Flax closed dull at 92½¢ for cash and 93 for May.

A BLACKMAILER

James Black, the Celebrated English Detective, Now in Deep Disgrace.

The Man Who Convicted Egan and Daly is Himself a Criminal.

A Sensational Story of Corruption in English Official Life.

NEW YORK, March 29.—The Sun this morning has a special cablegram from London giving the details of the investigation made by its English representative in the fall of James Black, ex-inspector of police of Birmingham, who disappeared and whose disappearance has caused John Redmond to ask of Home Secretary Matthews whether, as John Daly and James Egan were convicted largely on the evidence of this inspector, an investigation will be instituted by the authorities into his official career.

Black, to whom was principally due the conviction of Michael Davitt, 23 years ago, of Dr. Gallagher, nine years ago, and of Egan and Daly, has been considered one of the shrewdest detectives in England. The Sun's representative who visited Birmingham yesterday finds that Black is now a discredited man who is known to have been long privy to a blackmailing scheme, and who is at present a fugitive from home owing to threats of an investigation of his official career. The facts ascertained have been given to Redmond, and upon them he will base a further demand for an investigation, in which he will be upheld by Alderman Manton who has been for 40 years a member of the watch committee which controls the police department of Birmingham. Alderman Manton is a conservative so that politics do not enter into his view of the case.

Alderman Manton said yesterday that after the conviction of Daly and Egan the chief constable of Birmingham hinted that the two men were innocent and that a job had been "planted" on them. "It is not only the venerable Alderman, excitedly," and there must be a government inquiry. Daly and Egan are innocent men and that is necessary to establish the integrity of the official career of James Black.

The circumstances which led up to the exposure of Black are these: On February he tendered his resignation as inspector of police. The watch committee begged him to reconsider, but he obstinately refused. At the same time that Black announced his intention of resigning, a young living man, a wealthy oil merchant of Birmingham, made sudden demand for £5000. Elliott, who was an elderly widower with a grown up family, had married a woman in London about 18 months ago, she having brought a charge of seduction against him. The solicitors investigated the case and it turned out that the woman had been seduced by a man named Elliott. The woman through his friendly advice to old Elliott, the solicitors then not only declined to give her the money, but threatened to bring suit against her, with Black as co-respondent. This was the reason Black resigned so suddenly from the police department, for he knew that his secret had gotten out and he feared exposure. Since these facts have been whispered about in Birmingham, numbers of citizens have come to the chief of police to tell him of successful blackmailing operations upon them. By Mr. Elliott's knowledge of the case, Mrs. Hall, and in almost every instance Inspector Black's kindly advice to the victims to pay up and avoid a scandal had been the reason for submission.

It can be easily understood that the discovery of these facts in connection with Black's private life and official career has cast quite a new complexion on the Daly and Egan case. Some men, who have always been declared by those who studied their case, were innocent of the charges brought against them. Now it seems to be every reason to believe that they were the victims of a vile plot. Black's testimony was always the only evidence against Egan. It was he who swore that a bottle of nitro-glycerine was found hidden in the garden attached to Egan's house. Alderman Manton and others have repeatedly declared that the police placed the bottle in the garden where they dug it up and it would now appear as if there was much justification for that allegation. This is the plea which the police have appealed to Mr. John Redmond and which he is determined to probe to the uttermost. The matter will come up at the house of commons that at the time of the Egan and Daly case Black's character was such as to make his evidence wholly unreliable the letters must at once be struck off the unfortunate men who are at the present moment wearing themselves out in penal servitude.

Lamar Not Seriously Ill. WASHINGTON, March 29.—Reports that Justice Lamar is seriously ill are denied at his residence this morning. He was prevented from attending the supreme court yesterday, it was stated, by a cold and he remained in bed. Today, however, he is up and about after a good night's rest and expects to be at the capital tomorrow.

Run on the Beach. NEW YORK, March 29.—The Blue Point fishing station reports the four-master schooner Job H. Jackson ashore opposite Patchogue. The vessel rests easy on the beach, but will not come off this morning.

Pension Payments. WASHINGTON, March 29.—In the week ended March 10, the pension bureau allowed \$735,000, of which \$632 were under the general law and \$102,800 under act of 1890. The total first payment was \$835,000, the average being \$144, and the average monthly rate \$266.

BOLD MEXICAN BANDITS.

They Enter a Town at Midday and Rob the Citizens.

GUANAJUATO, Mex., March 29.—A few days ago several bandits were discovered by a detachment of the Rural guard, near Leon, taking up the track of the Mexican Central railroad for the purpose of derailing the express train that would soon be due with the view to robbing it. The guard fired upon the bandits, killing every one of them. This stopped the depredations of the other members of this band until Sunday, when five of them rode into the town of Perito and held up a number of citizens on the street at midday, securing a considerable amount of money. One man resisted and was fatally shot by the bandits. They then coolly rode out of town.

Watterson for Cleveland. LOUISVILLE, Ky., March 29.—Henry Watterson has the following in the Courier Journal today: "From first to last the editor of the Courier Journal has held to one position, namely, that to win Mr. Cleveland's support for the presidency of New York. On this point he has never wavered, writing column after column to maintain it, and seeking by personal effort to make it good. At no time has he been for Hill. On the contrary, he has repeatedly given reasons why Governor Hill should not be the nominee and why he cannot be elected if he is. It is strange to see a journal so observant as the Philadelphia telegraph ignore all these facts in order to make it appear that Mr. Watterson has in any way at any time, on this point, changed his opinion of had any hand in muddling the democratic situation. Exactly the reverse is true."

Again on the Boundless Ocean. LONDON, March 29.—The German steamer Eider is now in deep water on her way to Southampton. Capt. Hendrickson, who is on board, has never-wavering confidence that it would at length be rescued and who has labored night and day in the attempt. The Eider reached deep water and remained afloat all present gave a cheer which made the cliffs of Wight ring again and again and Capt. Hendrickson was almost overcome by his feelings. The Eider is considerably damaged but the main part of the steamer is in good condition and with thorough repairs she will, he believes, be doing service again on the ocean.

Battle With Train Wreckers. BIRMINGHAM, Ala., March 29.—Sunday night an attempt was made to wreck and rob a Louisville & Nashville passenger train at Boyle's Gap, three miles north of this city. Last night a squad of nine policemen went up on the same train at 11:30 o'clock and news has reached here that the robbers repeated their attempt at a battle ensued. Over 100 shots were fired though the results cannot be ascertained. Reinforcements were sent from Birmingham and the train left with no picked men. The Southern Express company has been on the look-out for robbery along this line in Alabama for two weeks.

A Spurious Count. MONTREAL, March 29.—A number of Montreal society people have been swindled by a sharper who has for some time been living in the city. He is now leaving his statement that he was the scion of a noble Austrian family. A titled Austrian nobleman, who was a friend of the sharper, was induced to go to Montreal doctor exposed the spurious "count," as he called himself, and the fellow promptly fled. The count is an Englishman and gave the name of Henry Belmont. It is thought he has gone to the United States.

Reporters at the Convention. MINNEAPOLIS, Minn., March 29.—The original convention hall plans provided for 24 seats for the reporters. The press committee fancied that these accommodations were insufficient. Some members of the national committee thought that more seats for the press would crowd out some of the spectators. Architect Hayes, however, has found that 20 more seats can be added in the space already allowed for the press. The crowd, and it has been decided that 24 seats will be reserved for the newspaper men.

Prize Fire on the. JULESBURG, Col., March 29.—The sparks from an engine on the Union Pacific railroad set the prairie on fire about 8 o'clock last evening. The wind is blowing at a furious rate and the fire is running fast. At McCook, Neb., a heavy gale has unroofed many small buildings. In some places the fire was set three or four miles from where it started.

For a \$50000 Purse. NEW YORK, March 29.—Arthur Lumley, of the Coney Island Athletic club, last night asked Bob Fitzsimmons if he would meet Jimmy Carroll, of Brooklyn, in a 10-round bout for a purse of \$5000. Carroll is very anxious to get a crack at Fitzsimmons, who is a favorite of the public. Lumley says that he would like to have a cinch with Carroll and will probably accept the offer, but he is likely to arouse considerable interest.

Flowers for Beauty. The spring opening of Silberstein & Bondy which occurred yesterday has been made the occasion of a very handsome display. The number of ladies who took advantage of the affair was very large. All ladies were presented with floral souvenirs, and from the number of these disposed of Mr. Barker, who had the affair in charge estimates the number of visitors at 5000. The store was handsomely decorated with flowers and was further ornamented by a choice display of new goods in all departments. The dress goods and cloak departments attracted the great share of attention though the new goods displayed on every hand were all fine.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
March 28.—The storm which was over Montana
yesterday has moved to Duluth, where it is now
central, and extends in the form of a tongue
from Kansas to British America in a narrow
tongue.

No precipitation of consequence has fallen
in any part of the country since the storm be-
gan yesterday. It is expected that the storm
will reach this section by tonight. An area of high
pressure has moved in from over the north and
now over eastern Minnesota. It is expected that
it will probably crowd the low area down to the south
of here.

No cold weather has made its appearance yet,
but the low area in the north is expected to
draw the warm air from the south to this
section. This will continue until the storm
passes, when it will turn cold again. The lowest
reported temperature is 2° at St. Marie, the
highest is 36° at Kansas City.

DULUTH, March 28.—Local forecast for Duluth
until 8 a. m. March 29: Fair, followed by rain;
slightly warmer; high, mostly windy; fair and
colder tomorrow.

B. H. BRONSON,
Observer.

WASHINGTON, March 28.—Forecast till 8 p. m.
Wednesday: For Minnesota and Dakota: winds
shifting to westerly slightly colder.
For Wisconsin: increasing cloudiness, with
light showers, southeasterly winds, becoming
variable; warmer Wednesday morning; prob-
ably slightly colder Wednesday night.

THE GERMAN CHANCELLOR.

German reports are pretty nearly
unanimous to the effect that Chancellor
Caprivi will soon retire from office. The
withdrawal or modification of the educa-
tional bill in the Prussian landtag was
productive of more radical difficulties
than have generally been anticipated.
The young emperor has, in fact, hitherto
had a strong support from the catholic
party in both the Prussian and Imperial
parliaments.

One of the great difficulties which
made the continuance of Bismarck in
office very doubtful, aside from his own
differences with the new emperor, was
the quarrel into which he had plunged
the empire with the pope and the catho-
lics, through the passage of what was
called the Falter law, which the catho-
lics thought discriminated harshly
against them. Consequently the catho-
lics in the various parliaments in the em-
pire voted bodily against him. Later his
masterful local policy brought him into
collision with the socialists. In propor-
tion as this quarrel enlarged on his
hands he mitigated to some extent his
anti-catholic laws. Still, though the sup-
port of the catholic party would have
been very useful to him, it was not abso-
lutely necessary for he could combine a
majority out of the other conservative
elements in the reichstag.

As soon as it became evident that the
young emperor was not altogether satis-
fied with the buldied policy Bismarck
pursued toward the socialists, and the
last reichstag elected under Bismarck's
regime, showed a large increase of their
power; and when, in fact, Bismarck
could not organize a majority in the new
reichstag without the aid of the catholics,
the emperor determined to dismiss the
great chancellor from office. His suc-
cessor, Caprivi, soon patched up an ar-
rangement with the catholic party by
which the obnoxious laws against them
were repealed, and the emperor was
given a practical majority through their
aid.

The Catholics have always demanded,
however, the passage of laws giving
them the control of the education of
children of Catholic parentage. Bis-
marck would not concede this point, of
course, but Caprivi has finally brought
himself to bring in a bill giving Catho-
lics, Lutherans and a few other favored
denominations, control of this great
matter.

The great unpopularity of the bill in
Berlin and in fact throughout a large
portion of the Empire, finally impressed
itself on the mind of the Emperor and
the recent crisis resulted. The fact
would seem to be, that Caprivi's system
of government is broken up by this
change in the Emperor's policy, and
he can no longer rely on their steady
support in the reichstag. His willing-
ness to force a bill so dangerous to po-
pular liberties would make it impossible,
also, for him to expect aid from the lib-
erals. His speedy retirement from of-
fice, therefore, is probably unavoidable.
A still more important question is,
whether the Emperor himself, having
deeply offended the Catholics, can com-
mand the support of a majority in the
reichstag for measures, on the passage
of which, he has set his heart. To do so
it would seem to be most greatly lib-
eralize his general policy, or venture on
the risky experiment of dissolving the
present reichstag, with the probability
that the people of Germany would re-
turn another Parliament still more lib-
eral than the present one.

As is well known the Hartford in-
surance companies loan immense sums
on Western securities. President
Greene, of the Connecticut Mutual Life,
framed resolutions which recently passed
the board of trade of that city, which set
forth that the fact is undeniable, that
foreign investors are beginning to drain
all the gold out of the country. With
the passage of the silver bill the dollar
would drop to the silver basis and not
worth more than 70 cents. The insur-
ance companies report to the insurance
department of Connecticut that they
have invested in various parts of the
country the enormous sum of 3,676, mil-
lion dollars. No sooner should a free
coinage bill pass Congress than all loans

would be made on special contract re-
quiring payment in gold coin, and, if we
are not mistaken, a great many Eastern
investors already place that provision in
their notes and securities which they
hold against Western debtors. The
Iowa legislature, by a bill which has
passed one house attempts to make fu-
ture contracts of that kind illegal by pro-
viding that they can be paid by any
form of legal tender dollar. It will be a
queer question whether that bill, if it be-
comes a law will not be unconstitutional,
but if it is not, in case the passage of the
silver bill, Iowa farmers will find it al-
most impossible to obtain loans, what-
ever interest they may be willing to pay.

The last report of the United States
civil service commissioners shows a re-
markable record of the competency of
the women who have been examined for
offices before the commission. Taking
first the examinations for copyist places
were examined during the last fiscal
year, of whom 1204 were women and 886
men. Of the former 1014 passed, being
more than five-sixths of the whole num-
ber examined. Of the latter, less than
half passed. With the higher appoint-
ments the examinations of the women
were equally remarkable. More than
three-quarters of those examined passed,
while but little over a third of the men
examined were successful. Even in
stenography, the women examined were
the most successful. We must remem-
ber, perhaps, that a \$500 or \$1200 clerk-
ship is a much more important thing for
a first class woman than to men. How-
ever they may account for the foregoing
fact they are none the less astonishing.

It appears from a valuable article re-
cently published in the San Francisco
Call, that there are most wonderful dif-
ferences in the prices charged for trans-
portation of freight on the Central Pa-
cific and on the Northern Pacific rail-
roads. Comparing the rates for 300
miles from St. Paul and 302 east from
San Francisco, differences occur as fol-
lows: On agricultural implements the
Northern Pacific is \$7, the rate on brick
on the Central Pacific is \$6.70, on the
Northern Pacific it is \$3.60; on dry goods
the former road charges \$32.40, the lat-
ter \$17, while on iron castings the for-
mer charges \$21.40, the latter \$7. This is
certainly a most astonishing exhibit and
shows how the Californians are plun-
dered by their railroads. The prices
charged on the Southern Pacific are said
to be still more extortionate.

Walt Whitman, "the good, grey poet,"
as he is often called, died at Philadelphia
after a lingering illness on Saturday. Of
his merits as a poet there will always be
great differences of opinion. An at-
torney general of Massachusetts de-
clared that one of his books was an ob-
scene publication, and Secretary Harlan
removed him from a position in the In-
terior Department for the same reason;
on the other hand, Emerson commended
his poetical efforts.

The St. Paul Globe, summing up the
political position in this state, says, that
as President Cleveland has a large lead
for the first time on the Democratic
ticket. Next to him comes Gov. Boies
of Iowa, with Gen. Palmer, of Illinois, as
third. Practically there is no dispute
about the renomination of President Har-
rison by the Republicans. There is
much talk also of him nominating Hon.
Knute Nelson for governor of the state.

The authorities of West Australia had
great trouble in carrying the murderer
Deeming to the jail in Melbourne, the
windows of the carriage in which he rode
were broken in the frantic attempts of
the mob to get hold of and lynch him.
Little confidence is placed in his claim
that his murderous propensities were
the result of an injury received in Zululand.

The papers are now busy investigat-
ing the record of Mr. Borrowe who they
insist was actually kicked out of the
house of Mr. Newcombe, a well known
New York financier. The gentleman
who was to act as second for Mr. Dray-
ton was so unfortunate as to be locked
up for being drunk and disorderly on
Wednesday last.

Lord Salisbury is now said to be will-
ing if the Bering Sea treaty is ratified to
agree to an arrangement similar to that
of last year, provided the United States
will consent to empower the arbitrators
to assess damages to the Canadian seal-
ers in case they find that their business
is legal.

Recent investigations indicate that the
farm mortgage debt of Kansas has been
reduced \$7,000,000 during the last eight
and a half months. It must be un-
derstood, of course, that the condition of
these months has been wonderfully fa-
vorable to the farmer, both as to the size
of his crop and as to its price.

Telegraphic advices received at San
Francisco state that there have been
several bloody engagements between the
Imperial troops and the rebels in
China. If these reports can be credited
8,000 rebels were put to the sword
and 500 burned alive.

ported in the House, Saturday, carries
\$1,584,025 being a little more than half
million less than the appropriation for
those purposes by the last Congress.

on the free coinage bill shall be taken at
once, and that no dilatory motions will
be allowed.

LOOK TO YOUR HEALTH

The Changing Season Certain
to Cause Sickness.

Symptoms of the Diseases More
Common at This Time.

What the Doctors Most Frequently
Prescribe in the Spring.

Nothing demands more serious atten-
tion than the weakness and tired feelings
so common in the spring months. And
this is especially true this year, following
the serious epidemic of grip.

This cry of "spring medicine," "blood
purifiers," "nerve tonics," etc., represents
an actual need of the people.

The passing from winter to spring,
with its resulting changes in clothing,
diet and exercise, cause headache, pain
in the back, loss of appetite, sleepless-
ness, weak nerves, impure blood, and a
general hatred of work by the body and
mental faculties.

It is better to prevent serious sickness
by prompt attention to these symptoms
than to wait until physicians show that
there have been many different prescrip-
tions for this common and often danger-
ous condition, but the brightest men in
the medical profession unite in prescrib-
ing Dr. J. C. Ayer's Sarsaparilla, ex-
haustive trials have shown it to be always
the same—a pure, healthy medicine that
strengthens the nerves, purifies and en-
riches the blood, and regenerates the
whole physical system. This compound
should not be confounded with the ordi-
nary "spring medicine." It is the dis-
covery of no less a man than the emi-
nent Dr. J. C. Ayer, M. D., L. L. D., of
Dartmouth college.

It has cured some of the most promi-
nent men and women of the land, sev-
eral of whom have acknowledged
through the press the great benefit they
derived from its use.

Physicians use it and prescribe it.
Reputable druggists endorse it, for its
formula is open to their inspection, and
so they are certain that this compound
contains only that which is pure and
strength-giving.

It is a household remedy and many
families buy half a dozen bottles at a
time, for it keeps perfectly, the last drop
in the sixth bottle being as full of cur-
ative power as the first dose they take.

Many wonderful cures are recorded
for Dr. J. C. Ayer's Sarsaparilla, where
everything else failed. Scrofula, rheu-
matism, and all blood diseases, yield to
its health-restoring qualities. Sleepless-
ness, nervousness, and debility are ban-
ished by this food for nerves and brain.
If it cures such dread diseases, does it
not stand to reason that it will quickly
conquer the lesser ailments that afflict
humanity?

Make no mistake. This spring, use
Dr. J. C. Ayer's Sarsaparilla, for there is
nothing else so good.

G. G. Hartley Interviewed on Pol-
itics.

G. G. Hartley is in New York and the
Telegram of that city says that, G. G.
Hartley, a prominent citizen, business
man and republican politician of Du-
luth, Minn., and also one of the Propri-
etors of the Daily News, of that city,
stopping at the Fifth Avenue hotel, Mr.
Hartley thought the farmers' alliance
had lost ground greatly because of the
broken promises of last fall, when the
farmers were given to understand by a
circular from that body that wheat would
go up to \$1.50 a bushel if they held out
for it, whereas they could have obtained
75 cents a bushel, and lost heavily by
not selling at that price. Later they
were chagrined to see wheat down to 85,
and are consequently disgusted with the
alliance managers. Mr. Hartley thought
that the republicans would regain their
lost ground next fall and elect their state
legislature by a two-thirds majority.
Knute Nelson will probably be the re-
publican candidate for governor. As to
the Minnesota delegates to the national
convention Mr. Hartley said he believed
they would not be pledged to Harrison
or any other candidate.

Always Blame a Willie.

"Babies in the big stores" said the
clerk in the big Fourteenth street em-
porium. "I should rather say the tots
are with us."

"What do the ladies do?"
"Well, the average woman who may
come in with a child usually begins by
depositing it on the bargain counter.
Then she is led away, step by step, look-
ing for this or that, until at last she has
forgotten the little burden. This sort of
thing will go on for half an hour or so,
when suddenly a woman with weeping
eyes will come running up to the floor-
walker, and say, in a blubbering tone,
that she has lost her 'dear darling little
Willie.'"

"Poor Willie is lost, eh?"
"Willie is missing. We try to soothe
her, but best we may, but her mind is
filled with all sorts of terrors and it is all
she can do to keep back the tears."

"Do you find Willie?"
"He is generally found asleep under
the counter and then he is restored to
mamma."

"Oh, what a scene!"
"Just so, I never yet knew it to fail.
And say!"
"Yes!"
"I never met a woman who could can-
dily acknowledge, under circumstances,
she had been careless."

"What does she say?"
"She always says her dear baby must
not be bad and wander away again.
Women are strange creatures."

THE CHAMBER MEETING

A Large Amount of Important Routine and Special Work is Transacted.

Secretary Thompson Makes His Official Report of His Work at Washington.

The Secretary to be Sent to Washington to Complete His Important Tasks.

There was not a large attendance of members at the meeting of the chamber of commerce this morning, and while the business was generally quite important, it has nearly all been given previously in the daily papers. Secretary Thompson read the letter from Chairman Blanchard relative to the availability of part of the appropriations for the Grassy Point channel, and then Mr. Thompson gave his official report of the work done at Washington and Detroit, nearly all of which has been given in the daily papers.

A memorial was received from the different commercial bodies of St. Louis asking the chamber to use its influence toward the end that all improvements or appropriations for the Mississippi river be made in a bill separate from any bill for the lake projects. The communication was laid on the table. It was unanimously the sense of the meeting and it was so ordered that Secretary Thompson be sent to Washington without delay to look after the various Duluth matters which are in progress there.

A communication was received in which was offered the use of a room in their building in New York for the display of maps and specimens, asking in return that the chamber make the fact known as to the location of the room. The communication was referred to the secretary with instructions.

The Odd Fellows' Review publishers wrote asking whether the chamber would take 15,000 or 20,000 copies of the paper containing a write-up of Duluth just prior to the forthcoming I. O. O. F. convention here. This matter was also referred to the secretary who will confer with the Stock and Real Estate Exchange.

C. A. Long introduced Mr. Holmes of the proposed Duluth, Red Lake Falls & Northern road, who spoke briefly, but forcibly on the plans of his company regarding joint use of the terminal privileges asked for in a recently introduced ordinance, and three members of the chamber will be appointed as a committee to look into the matter, and if it is deemed advisable Mr. Holmes' plan will receive the support of the chamber.

A. T. Crossley then spoke at length reviewing the work of Secretary Thompson since the East. His remarks were highly commendatory, and C. A. Long moved that they be incorporated in the minutes of the journal and subsequently printed. The chamber then went into executive session at which, among other things, the question of finances was liberally discussed, also the three pieces of incomplete work now being furthered by the chamber.

CITY BRIEFS.
George W. Post has sold G. H. Besse his lot on the corner of Park & 5th.

The banquet of the Baptist union which was to have been held at the Brighton Monday evening, April 4, has been postponed to Tuesday evening, April 5.

The total number of cases on the district court calendar, including 56 continued actions, will be only about 100. This would indicate the shortest term of court which has been held for some time.

The will of the late M. B. Harrison will be probated in Duluth March 31. Gen. W. W. Henry, the father of Mrs. Harrison, will probably be appointed administrator. The assets foot up nearly \$120,000.

FORECAST FOR MARCH 29.
Local forecast till 8 a. m. tomorrow: Fair, followed by rain; slightly warmer; high easterly winds; fair and colder tomorrow.

THE MARKETS.
Wheat Irregular, But Closes Slightly Higher.

There was a fair amount of trading today on a steady market. Considerable amounts of July and June futures changed hands today for the first time this season. The market sustained its strength well to the noon hour. Early cables indicated dull foreign markets with a lower tone. The imports into the United Kingdom for the past week were 163,000 qrs of wheat and 439,000 bbls of flour. Wheat on passage shows a decrease of 1,312,000 bu. The strength of the market was mainly due to the buying of report by New York on the wheat that the anti-option bill had been so changed as not to interfere with legitimate grain business as now conducted. May sold at the opening here 1/2c higher and at noon was about the same figure. The close was dull and somewhat irregular at an advance of 1/4c to 1/2c over yesterday's closing.

Cash No. 1 hard ruled dull, closing neglected at 70 1/2c. Cash No. 2 northern closed dull 1/2c advanced over yesterday at 70 1/2c. Cash No. 3 spring ruled dull, closing steady, 1/2c advance at 63 1/2c. Rejected wheat closed steady at 2c advance at 58c.

March No. 1 hard closed 78c, 1/2c advance. March No. 1 northern was neglected, closing steady, 1/2c advance at 76 1/2c. May No. 1 hard had little demand, closing dull 1/2c advance at 81 1/2c. May No. 1 northern had fair amount of trading, starting with sales at 79c and going up to 79 1/2c, followed by sales at 79c and strengthened to the close at 79 1/2c. June No. 1 hard closed steady at 81 1/2c. June No. 1 northern ruled dull, closing steady at 79 1/2c. July No. 1 hard ruled dull, closing at 83 1/2c. July No. 1 northern sold early at 81 1/2c and closed at 81 1/2c.

Millstuffs closed at \$12.25 and \$12 for bran and middlings in 200 lbs. sacks. Flax closed at 2 1/2c for cash.

Count de Lesseps, the Great French Engineer Charged With Swindling and Breach of Trust.

Said to Have Resorted to Fraud to Secure Control of the Panama Canal Company.

"Good Will" Indemnity to Be Paid to Relatives of the New Orleans Victims.

NEW YORK, March 30.—Count Ferdinand de Lesseps, the great French engineer, is charged in the courts of France with swindling and breach of trust. As the transaction upon which the accusation is based occurred in New York, the greater portion of the testimony to be used in the trial must be taken here.

The French consul general recently received letters for the examination of many of the most prominent American financiers and in accordance with these Messrs. Jesse Seligman, Edward Winslow and Charles G. Franklin were yesterday sworn as witnesses in the supreme court. The examination was adjourned until today. Many other well-known financiers will be called upon for testimony. The alleged swindle and breach of trust specifically set up against Count de Lesseps occurred in the deal through which he and the other trustees of the Universal Inter-oceanic Panama Canal Railroad company obtained control of the Panama Canal more than 10 years ago.

The deal involved the purchase of 68,534 shares of the railroad company's stock. For this the stockholders in the canal company had to pay about \$268,250 a share, though it is claimed that the market value of the stock did not exceed \$100 a share and was probably less. It is this uttering of railroad stock that the French authorities are inclined to regard as a swindle and a crime. The French courts want to have the matter thoroughly sifted and to discover the reason why \$268,250 was charged for every hundred dollar share.

NEW ORLEANS MASSACRE.

Relatives of the Murdered Men to Receive Indemnity.

INDIANAPOLIS, March 30.—The friends of ex-Governor Porter have reason to believe that he will return in a short time to his post in Rome as United States minister to Italy. News received in Indianapolis from St. Louis indicates that the administration is willing to pay to the relatives of the men murdered by the New Orleans mob the sum of \$100,000 francs as indemnity.

The payment of this sum, it is understood, will be accompanied by a declaration which will claim that the government of Italy that this act on the part of the United States is nowise to be considered as an acknowledgment of its obligation or liability for the failure of the local authorities in New Orleans to protect the lives of Italian citizens, and as evidence rather of the good will and friendliness of feeling which has always characterized the relations between the government of that Italy. It is understood that congress will not be called upon to appropriate the money, but that the contingent fund of the state department is to be drawn upon. This will save time and enable the administration to act promptly in the matter.

Tariff War Discussion.

OTTAWA, March 30.—A tariff war between Canada and Newfoundland was discussed in the senate yesterday, when Mr. Boulton moved for any orders in council, or letters of instruction, directing the custom authorities to put in force against the people of Newfoundland the tariff of 1885, which imposed duties upon their fish, and any other papers or documents relative to the matter now in dispute between the governments of Canada and Newfoundland. Mr. Boulton spoke for two hours. While admitting that Canada acted properly in blocking the reciprocity treaty negotiated between Newfoundland and the United States, he declared that he was first to protest against the tariff. Several senators held that the blame rested entirely with Newfoundland. Premier Abbott will resume the debate today.

Kentucky Republicans.

LOUISVILLE, Ky., March 30.—At noon today Chairman John M. Yerkes will call the republican state central committee together for the purpose of electing four delegates from the state at large, four alternate delegates, two electors and two assistant electors to the national convention at Minneapolis. That William O. Bradley, Judge George Denny and Collector John Feland will go to Minneapolis was generally conceded last night, but the question remains on who will be the fourth delegate from the state at large.

A Vigorous Manifesto.

NEW YORK, March 30.—Caracas, Venezuela, advises to the Herald under date of March 18, that President Palacios has issued a manifesto to the states of the republic sustaining his contention in the parliamentary struggle. He declares that he would not accept another term as president, denounces his opponents as the congress and singles out Gen. Crespo for especial denunciation. The manifesto is filled with patriotic sentiments. The supporters of the president hailed this manifesto with delight.

Makes Serious Charges.

HARRISBURG, Pa., March 30.—Postmaster B. F. Myers, of this city, gave out an open letter last night, addressed to the democrats of Pennsylvania in which he charges all sorts of things against Secretary of State Harritt, and declares that he is determined to remove him. Among other things he accuses Harritt of bribery.

Serious Earthquake.

VALPARAISO, March 30.—A serious earthquake occurred at Africa yesterday and caused great alarm among the inhabitants. It was accompanied by a heavy tidal wave. The shock was felt at both Valparaiso and Santiago.

Millinery Opening.

The great event of the week will be the millinery opening at Mrs. O. S. Humes, over Saffels, 131 West Superior street, Wednesday and Thursday, the 30th and 31st. No cards.

WALT WHITMAN'S FUNERAL.

Plain Simple, Impressive and Loving—Such as he Desired.

CAMDEN, N. J., March 30.—Today several thousand people viewed the body of Walt Whitman. From North and South, East and West, men and women have hurried to be present at the burial. Wires on land and the cables under the sea were burdened with messages of remembrance and thanksgiving that the long and terrible battle with disease is over, and that the brave spirit of the bard of democracy was firm and faithful to the end.

The "Good Gray Poet" looked as natural as in life and those of his friends who had not been able to see him during his last illness were pleased to find his face as calm and placid as if he had just lain down to sleep. Among the friends and admirers of the late poet present were George W. Childs, Julian Hawthorne, Col. Robert G. Ingersoll, Horace Furness, Esq., Daniel G. Brinton, John Burroughs, J. H. Johnston, Lincoln L. Elyre, J. H. Stoddard, Francis Howard Williams, Talbot Williams, Dr. R. M. Buck, Thomas B. Harned, Horace S. Traubel, and others.

The "Good Gray Poet" was taken to Harleigh cemetery in the outskirts of Camden and a public funeral service held. A Whitman himself had wished, no clergyman participated in the exercises. The service was begun with the reading of the scriptures and the dead poet's works by Francis Howard Williams, Dr. Daniel G. Brinton, Philadelphia, and Dr. R. M. Buck, of London, Ont., the friend and biographer of Whitman. Col. Robert G. Ingersoll made the concluding address, which was an eloquent eulogium of the dead poet's life and works, and his services to the cause of democracy. The body was then consigned to the tomb which was centrally placed under Whitman's direction three years ago.

Much indignation is felt here at certain newspaper attacks on Whitman's personal purity. Mr. John Burroughs, the well-known writer, is preparing an indignant denial and those who knew the old man say it is a cowardly slander upon the dead.

WORK OF THE FLAMES.

Boston and Cincinnati Visited by Disastrous Fires.

BOSTON, March 30.—At 4 o'clock this morning fire started in the engine room of Clark's hotel, Washington street, and quickly spread through the lower floors. Some of the guests jumped from the third floor, being too bewildered to use the fire escape. Three men were badly hurt. One of them, E. W. Perry, of Leicester, Mass., died soon after reaching the hospital, and T. W. Southbridge, of Cambridge, is probably fatally injured. The other man is a Mr. Stockwell, of Lacombe, one of his legs having been broken. There were about 50 guests in the hotel, among them the members of the "Shenandoah" company. There were numerous narrow escapes from asphyxiation and the firemen carried out several men in an unconscious state. The loss of the building is estimated at \$75,000. The Ohio company would save the stock valued at \$60,000, on which there was a partial insurance and which is a complete loss. The building was only partially insured. The loss on it is not yet known.

Blaze at Cincinnati.

Cincinnati.—Early this morning fire started in the engine room of Clark's hotel, Washington street, and quickly spread through the lower floors. Some of the guests jumped from the third floor, being too bewildered to use the fire escape. Three men were badly hurt. One of them, E. W. Perry, of Leicester, Mass., died soon after reaching the hospital, and T. W. Southbridge, of Cambridge, is probably fatally injured. The other man is a Mr. Stockwell, of Lacombe, one of his legs having been broken. There were about 50 guests in the hotel, among them the members of the "Shenandoah" company. The Ohio company would save the stock valued at \$60,000, on which there was a partial insurance and which is a complete loss. The building was only partially insured. The loss on it is not yet known.

A Runaway Train.

READING, Pa., March 30.—A fatal accident occurred on the Frackville branch of the Reading railroad last night. A large engine with a train which was coming down the steep grade got beyond the control of the engineer and ran into the rear of a passenger train. The locomotive collided with a light engine, wrecked the passenger train, and killed instantly Joseph Troy and John Bauer, brakemen of the light engine. They had gone to sleep on the platform in front of the engine. John Bull, another trainman, was fatally injured. The engineers and others of the crew escaped by jumping.

Minnesota Republicans.

MINNEAPOLIS, March 30.—The executive committee of the State League of Republican clubs is in session here today with the state central committee. The subject of discussion is ways and means of bringing transient republicans back into the fold. The principal event of the day was the address of President John Goodnow, of this city. He reported that of the 80 counties of the state have been organized and have representatives on the executive committee. Tonight about 150 of the leading republican lights of the state will be banqueted by the Union League club of this city.

Notable Chileans Arrive.

NEW YORK, March 30.—Among the passengers on board the steamer Newport from Aspinwall which arrived here today were Col. A. L. Rives (and family), superintendent of the Panama railroad; Lieut. Harlow, special commissioner to the World's fair for Chile; J. P. Espenosa, formerly minister of war; E. McKenna, one of the cabinet, and Dr. Cooper, surgeon of the Chilean hospital.

Murdered Her Stepson.

ST. GEORGE, N. Y., March 30.—Mrs. William Byington, of this county, has been arrested for murdering her 5-year-old stepson by crushing his head with a bootjack and attempting to conceal the horrible crime by burning the body. The woman has confessed the deed. She is believed to be insane.

Elected Without Opposition.

LONDON, March 30.—Mr. Austen Chamberlain, liberal-unionist candidate, was elected today without opposition for the seat in parliament for East Warrington, Lancashire, after the expulsion of George W. Hastings, also a liberal-unionist, convicted of embezzlement and now serving a term of penal servitude. In the last election Hastings had no opposition.

A LORDLY TRIUMPH

The Britishers Rejoice Over the Senate's Approval of the Bering Arbitration.

Which is Considered a Crowning Triumph of Lord Salisbury's Administration.

England's Next Move Will Be to Prove Our Claim to the Seals Unfetterable.

LONDON, March 30.—News of the approval by the American senate of the Bering sea arbitration treaty has been received with the greatest satisfaction and is considered a crowning triumph of Lord Salisbury's administration. No doubt is expressed that the arbitrators will decide fairly.

It is remembered that both Sweden and Italy are both eminently friendly to England. Sweden looks to England as a friend in the event of Russian encroachment upon the Scandinavian peninsula, and Italy is equally, or even more dependent upon British naval co-operation in the Mediterranean. In fact, it is understood that an agreement amounting in effect to an alliance has for some years existed between Italy and England. Another reason why it is believed that Sweden will incline to the English contention is that the Swedes themselves, as a northern maritime people, may wish to have a share in the seal hunting and Swedish and Norwegian sailors are largely employed on the Canadian vessels employed in that pursuit. Sweden keeps the northern seas open to the whole world.

The question of the seals the English expect to be able to satisfy the arbitrators that the United States claims to be tenable. It is now known that much of the rather defiant tone of the English government press and of utterances supposed to be officially inspired was not sincere and that Lord Salisbury has never thought for a moment of spilling any British blood in the case of the seals. He is said to be confident of ultimate triumph in the arbitration and would not think of war for the sake of a catch of seals. The Tories are everywhere boasting of the way the government has taken the wind out of the liberal's sails and added signal prestige to Lord Salisbury's foreign policy.

Capt. Heinicke Congratulated.

LONDON, March 30.—The North German Lloyd steamer Eider, rescued by German sailors from Atherfield, ledgers arrived at Southampton this forenoon after having entered the wet docks. The passage from Cowes was not as favorable as had been hoped, owing to the squally weather. Four tugs towed the Eider into Southampton. Hundreds are congratulating the vessel and Capt. Heinicke is overwhelmed with congratulations. It is learned that the sailor saved received £60,000 and that even a larger sum will be expended in restoring the ship to her normal condition. The London Standard writers find that they were wrong in their predictions that the Eider could not be saved. It is now clear that it was not worth saving, and that it would have been cheaper for the steamship company to have left the steamer on the rocks. The steamship company, however, does not take this view of it and they have telegraphed their thanks to Capt. Heinicke for the success of his efforts in saving the vessel and their joy that the Eider has been brought in safely.

Millions Involved.

CLEVELAND, March 30.—As developments are made in the Paige bank failure, the situation becomes more and more alarming. It is now rumored that two or three Cleveland banks hold a large paper issued by Paige in such quantities as to make them exceedingly shaky. The amounts involved are now pretty sure to amount to millions instead of thousands as was at first supposed. Great quantities of paper issued by Paige are held in nearly every city of Northern Ohio, but just how much of it is worthless has not yet been learned and probably cannot be known for some time to come.

Blaine at the Helm.

WASHINGTON, March 30.—Secretary Blaine, in conjunction with the President, has again taken direction of the Bering sea controversy. He was the first caller of the executive staff this morning, and after an extended conference with the President, retired to his residence to summon Gen. J. W. Foster and together they began framing the reply of the United States to Lord Salisbury's last note. The reply will probably be sent today.

Lynching Too Good for Him.

TOLEDO, March 30.—A special to the Bee from Findlay, Ohio, says Joseph Lytle attacked his divorced wife and two daughters with a hatchet and butcher knife this morning and cut them in such a horrible manner that all may die. Lytle was thrown into a rage by his wife refusing to again live with him. He is now in jail and says he is willing to hang for his deed, but does not want to be lynched.

Dying by Hundreds.

NEW YORK, March 30.—Advices from Santos, Brazil, under date of March 17 say that the yellow fever epidemic in that city is claiming from 100 to 200 victims daily and the intendant has had to order the enlargement of the cemetery.

Took the Cake.

The "cake walk" at the Pastoret building last evening for the benefit of St. Marks church proved a very novel entertainment. W. B. Richardson and Mrs. Grayson were the successful competitors. The second prize was won by J. H. Malone and Mrs. Howard. The judges were J. Buxton, J. N. Ritchie, Dr. McNulty, W. E. Werden and W. Cline.

The Feature of the Entertainment.

which was in the least unsatisfactory was the decision of the judges in the cake walk, there was no doubt that the conclusion arrived at by them was a perfectly honest one. In the opinion of most of the present, as expressed by a spokesman who called at The Herald office today, the prizes should have been awarded to J. H. Malone and Mrs. H. Howard and A. B. Brown and Mrs. W. M. Gray.

WORK OF CONGRESS.

Mr. Mills Takes the Oath as United States Senator.

WASHINGTON, March 30.—The swearing in of Mr. Mills, senator-elect from Texas, formed quite an exciting incident in the opening proceedings of the senate today. Mr. Mills was escorted to the desk by his colleague, Mr. Coke, and subscribed to the oath of office at the clerk's desk with somewhat more than the usual perfunctory accompaniments of this act.

Mr. Mills, being sworn in, took possession of the seat heretofore occupied by Mr. Chilton in the second row on the right of the vice president. Mr. Dawes, of Massachusetts, called up the pending and partially completed Indian appropriation bill, but yielded to Mr. Stanford, who thereupon delivered a speech in favor of his legal tender bill, in which he said: "The bill I have called up for consideration provides a standard by which to measure the value of a dollar. Adopt the standard of measurement for the value of a dollar and the parity of metals becomes inconsequent and as our money is only within our own jurisdiction we need not interest ourselves as to what material other countries may use for their money."

After finishing his remarks, Mr. Stanford moved to refer his bill to the finance committee, which motion was adopted. The senate then resumed consideration of the Indian appropriation bill, the pending question being agreement in the house proposition to transfer the control of the Indians from civilian agents to army officers.

In the House.

The following resignations from committees were announced by Speaker Crisp in the house today: Mr. Hopkins, of Illinois, merchant marine and fisheries; and postoffice and post roads; Mr. Enloe, of Tennessee, postoffice and post roads; and Mr. Hayes, of Iowa, education.

The following appointments were announced: Mr. Crain, of Texas, interstate and foreign commerce; Mr. Hopkins, of Illinois, merchant marine and fisheries; Mr. McKenna, resigned; Mr. Dunphy, New York, merchant marine and fisheries; Mr. Pickler, of South Dakota, Indian affairs.

Mr. Hayes, of Iowa, postoffice and post roads; Mr. Enloe, of Tennessee, education; Mr. Wheeler, of Alabama, postoffice and post roads; Mr. Robinson, of Pennsylvania, Columbian exposition.

Directors to the Columbian Hospital.

for women and lying-in asylum, Mr. Crain, of Texas, and Mr. Buchanan, of New Jersey.

The following bills were passed: Extending the privileges of immediate transportation to the city of Marquette, Mich. The bill for the relief of John Warren. Mr. McMillan, of Tennessee, said it was the purpose of the ways and means committee to close debate on the wool bill Saturday next and asked unanimous consent that the house should take a recess at 5:30 today until 8 o'clock tonight, the evening session to be devoted to the debate on the pending tariff bill. Agreed to. The house then went into committee of the whole on the tariff bill. Mr. Blount took the floor in support of the measure.

Sold for Grover.

ST. PAUL, March 30.—The state central democratic committee is assembling here today to meet tonight and complete arrangements for the state convention to be held tomorrow. Not a member has yet been interviewed who is not a Cleveland man and they have nearly all been seen. The delegation to be chosen tomorrow is to attend the Chicago convention and is expected to be solid for Grover.

Willgo Duck Hunting.

WASHINGTON, March 30.—It is probable that Harrison will leave Washington this afternoon with ex-Senator Sewell, of New Jersey, for a few days' duck shooting at Benjes, Maryland.

Thayer Knocked Out.

OHARMA, March 30.—The supreme court adjourned this morning without rendering a decision on Thayer's appeal for reopening his case against Governor Boyd.

Minnesota at the Fair.

ST. PAUL, March 30.—The world's fair commissioners are in session today considering plans for the Minnesota building at the exposition.

PERSONAL.

Robert Jamison is up from Minneapolis.

Adam Bede will go to St. Paul to look after the democratic convention.

C. D. Parker, of St. Paul, agent for the Traders' Dispatch, is in Duluth today.

Mrs. H. N. Shearer, of Chicago, is visiting her sister, Mrs. W. L. Murphy.

W. L. Goddard, of Tower, is among the guests registered at the Spalding today.

M. A. Hayes went down to St. Paul last night to attend the republican club meeting.

J. Duke Murray, of the "Milton Nobles" company, which comes to the Temple company, was in town yesterday.

Simon Clark left for St. Paul today to fulfill his duties as delegate to the democratic convention. Robert Wilson, of Superior, accompanied him.

Capt. McDougall is expected home from the East today and some important developments regarding pending contracts are expected at once.

H. J. Farrell is in the city today in the interest of a wholesale clothing firm of Chicago who contemplate establishing a branch here. Mr. Farrell examined several locations this morning, and if a desirable lease can be made, he will start three salesmen on the road from here May 1.

SUSTAIN MR. EGAN

Chilean Refugees now in New York Praise the Conduct of Minister Egan.

Senator McKenna and Julio Barrados Espinosa, Members of the Balmaceda Cabinet.

Say That by His Course Mr. Egan Won the Respect of All Parties.

NEW YORK, March 31.—Two of the most important persons who took refuge in the United States at Santiago on the downfall last year of President Balmaceda, arrive in New York yesterday on the Pacific mail steamship New York.

They are Julio Barrados Espinosa and J. E. McKenna, members of the so-called dictator's cabinet during the crucial period of his administration.

Senator McKenna was accompanied by his wife and six children. At the Hotel Victoria he told a reporter of the United Press that it was his intention to make his home here for the next year and a half, for the purpose of educating his children and at the end of that time it was possible that he would return to Chile.

Referring to the terrible days of Balmaceda's downfall, Senator McKenna said that he was not a participant in the events of the so-called dictator's government. "We were sustained by the government in a warm way," he said, "and is cause for deeper gratitude on our part to the great and noble American government. We were there four months and a half at the legation, and in all that time, despite the terrible drama we were on Mr. Egan, we were treated with every courtesy and kindness possible. At first we were too in all. Our number was gradually decreased after the congressionalists established themselves in the government and at last we were only 12."

Senator McKenna, in conclusion, again took occasion to speak very highly of Minister Egan, and said he won and enjoys the respect and esteem of both sides. He predicted that the congressionalists before very long will grant amnesty to all political exiles.

Senator Espinosa is staying at the Hotel America. He is famed throughout his country for his knowledge of law and skill in practice, and as a statesman is conceded even by his opponents to be one of the ablest statesmen of Chile.

This is his first visit to this country, and his admiration of New York, predisposed as he was to like everything American by reason of his deep gratitude to the United States, is unbounded.

WILL STRIKE TOMORROW.

Telegraph Operators Will go Out if Groomer is Not Relinquished.

WICHITA, Kans., March 31.—The telegraph operators on the St. Louis & San Francisco railroad last night declared themselves to strike tomorrow if the demands of the Order of Railroad Telegraphers in the matter of the reinstatement of Operator J. M. Groomer were not complied with by that date.

Groomer was deputy agent and operator at Piedmont Junction, and the measure was to deliver a message three miles in the country. For this offense he was discharged.

Cattlemen are Worried.

PHOENIX, Ariz., March 31.—Dispatches from various points along the Mexican frontier state that cattlemen are very much exercised over the persistent order from the Mexican government to move all cattle over the line before April 1st under the penalty of confiscation for custom duties. The law has been regarded as a dead letter for some time and cattlemen are preparing to resist any attempt to enforce the measure and have armed their cowboys for this purpose.

Burgers Beheading Burned.

MILWAUKEE, Wis., March 31.—The building and contents of Burgers Beheading company, 431 Market street, were totally destroyed by fire last night. Loss, \$40,000; insured, \$22,000.

Frank Knickerbocker, 16 years of age, who caused an explosion by coming too near the oil reservoir with a lantern, was terribly burned and will die.

A Terrible Storm.

TAYLORSVILLE, March 31.—Details of a late storm in this section are coming in and show that much damage was done. Six substantial log and frame dwellings were blown down and as many families left homeless. The mountain sides were almost entirely stripped of their forest and huge boulders were torn from the face of the cliffs.

A Rio Revolution.

RIO JANEIRO, March 31.—The latest news from the state of Sao Paulo is to the effect that a plot against the government has been discovered and that the conspirators have been arrested. Congress has nominated a new governor for Rio Grande do Sul, and in this way has quieted discontented inhabitants of that state.

TOOK THE TRAIN.

Passenger Train Held up by Robbers Near Birmingham.

BIRMINGHAM, Ala., March 31.—The passenger train which left here at midnight for Atlanta on the Georgia Pacific railroad was held up by masked robbers at 1 o'clock this morning near Weems, 10 miles east of here. As the train moved away from the station, a robber boarded the engine and covered the engineer with a rifle, compelling him to stop the train 500 feet away on a trestle.

One man stood guard over the engineer and firemen while several others opened on the train in order to frighten the passengers. Another robber knocked on the door of the mail, demanding entrance, which was refused. He then broke open the door, firing at the postal clerk, who was slightly wounded. Every registered letter in the car, supposed to contain money, was taken. The express car was not molested. The entire robbery was done in a few minutes, in which time several of the gang kept up a firing, and Flanagan Quincy Adams being killed. The engineer saw the robbers, a white man, and the postal clerk saw the robbers who were in a suit and a hat. The robbers were in a suit and a hat. The robbers were in a suit and a hat.

There was no express car in the train. 35 registered packages were taken from the mail car. Two of which were found by a campfire in the woods near by. The robbers were in a suit and a hat. The robbers were in a suit and a hat.

The officers are in hot pursuit and will no doubt capture the robbers. R. Hughes, the name of the postal clerk who was wounded by the robbers.

A NEW CREED.

A Realization of the Story of the Lost Wincup.

LOS ANGELES, Cal., March 31.—Jared Wincup, first struck rich silver ore in the foot hills back of Lordsburg last week. Two days ago he came in with specimens that assayed \$800 to the ton.

J. H. Milloner, a drummer, saw the specimens and followed the old prospector to his bonanza. He uncovered a lead which he declares is richer in silver than any he ever saw in Colorado.

He stated out a claim and many prospectors have started for the new camp. In the mountain canons where Wincup uncovered this silver ledge there has been a tradition for 30 years of silver mine that was lost after its discovery by a man named Hines, one of the Morogues who settled in Bernardino.

The original discoverer died before he could give anyone to the treasure, and several men lost their lives searching for it.

WILL HANG A HUNDRED.

Tale of Wholesome Executions That Is "Wild and Woolly."

BUTTE, Mont., March 31.—In 1888, in Northern Montana, between and so cattle thieves were hanged by ranchers as rapidly as they could be captured, but Wyoming promises to beat the record. For 10 years a band of cattle "rustlers" have been terrorizing the country.

The National Park. Courts have been powerless to convict, owing to the perfect organization of the rustlers. The rustlers have been terrorizing the country.

A search for Ravachol's lodgings has brought to light a quantity of materials for the construction of a boiler. The police officials express themselves as very proud of their system of measurement of criminals, as they are for the measurement it might have been impossible to detect the identity of Ravachol.

Feeling in London.

LONDON, March 31.—The excitement over the anarchist outrages in Paris is causing the London authorities to take unusual precautions for the security of life and property.

A MOTHER'S MADNESS.

Mrs. Doane Throws Herself From a Window.

NEW YORK, March 31.—Mrs. Margaret Doane, a handsome middle-aged woman, the wife of a produce dealer doing business in Washington market, moved herself with her 5-year-old son Frank from the city to Hoboken, N. J., where she was residing.

Thousands Are Homeless.

CALCUTTA, March 31.—Later advice from Mandalay, the capital of Burma, states that the loss of life by the great fire there is about 200.

He Approves.

ROME, March 31.—Senator Rudini has written a letter approving the proposed participation by Italian artists in the Chicago World's fair and promising the moral support of the government.

Troops Ordered Out.

ST. PAUL, March 31.—Troops "E" and "G," Eight cavalry, Col. Keuben F. Bernard commanding with four officers and about 90 men left Fort Yates yesterday, and two companies of the Third Infantry from Fort Snelling will leave tomorrow for service on the Sisseton and Wapeton Indian reservation.

Robbed a Bank.

EL RAY, Wis., March 31.—The City bank at this place was blown open by burglars about 1 o'clock this morning and about \$3000 secured. The robbers have escaped, but it is supposed they left on the Southbound train going either to Chicago or Milwaukee.

At Their Own Risk.

OTTAWA, Ont., March 31.—Lord Salisbury refused to consent to indemnify the Canadian soldiers for the loss they may sustain by being excluded from Bering sea. Canadian sealers going into Bering sea must do so at their own risk.

Fear an Eruption.

NAPLES, March 31.—The people are again in dread of an eruption of Vesuvius. The flow of lava is more than usual and other signs indicate danger.

ANARCHIST FIEND

Ravachol, the Anarchist, Identified as Koenigstein, a Notorious Criminal.

His Career From Boyhood Has Been One of Cruelty and Fiendish Crime.

Materials for Manufacturing Explosive Bombs are Found in His Possession.

PARIS, March 31.—The proof that Ravachol, the anarchist leader in the recent outrages, is a desperate criminal, whose neck should be under the guillotine has intensified the excitement and apprehension in regard to anarchist outrages. The police, on the other hand, express gratification at the discovery.

Criminals of the ordinary type, they say, are much more easily traced, and more readily detected than the anarchist who commits crime for political and social motives. There is no longer any doubt of the identity of Ravachol with the notorious criminal Koenigstein, whose father was a German and his mother a French woman.

Koenigstein's father was known as a criminal from boyhood. It is said that when he was a child he delighted in setting traps for mice and birds to his playmates.

As Koenigstein grew into manhood, he became an associate of criminals, and surprised older desperadoes by his readiness for deeds of blood.

FROM WASHINGTON.

Doings of the Day in Both Houses of Congress.

WASHINGTON, March 31.—An animated silver discussion was sprung in the senate today by a series of resolutions introduced by Mr. Morgan, of Alabama, which is to be continued tomorrow. Pointed references were made by Mr. Morgan to the attitude of presidential candidates on the question.

Mr. Hill was present during the discussion but took no part in it. The senate, by a vote of 29 to 34, refused to strike out the house provision authorizing the detail of army officers to act as Indian agents.

Mr. Allen of Washington presented a petition in relation to the Nicaragua canal. Mr. Hawley, of Connecticut, from the committee on military affairs, reported and the senate passed a bill empowering the managers of the National Soldiers Home to select their employees from among soldiers who served in the late war.

Acting Treasurer John C. Craft has been directed to take charge of the Chicago sub-treasury on account of the death of sub-treasuryer Dustin. He will continue to receive public moneys and pay checks. The sub-treasury cannot be closed on the day of the funeral.

The unexpected silver debate was precipitated by Mr. Morgan, of Alabama, who offered a series of seven resolutions instructing the committee on finance to agree upon and report to the senate the effect on the price of silver by the act of July 4, 1890, and whether said act had in any manner contributed to maintain the two metals upon a parity with each other; whether the treasury notes had at any time been at a discount or whether on the contrary they had not provided a safe currency and had not taken the place of gold shipped to Europe for speculative purposes and whether the coinage of either gold or silver was now actually authorized by any existing law of the United States.

Mr. Morgan said he would ask that the resolutions should be laid over to be printed as he, as well as other senators, decided to address the senate upon the subject.

Mr. Sherman said he had no objection to the immediate passage of the resolutions; but if the senator from Alabama, (Mr. Morgan), introduced them merely as a thesis upon which to base his discussion, it was hardly worth while to refer them at all.

Mr. Morgan said if the senator from Ohio (Mr. Sherman) was ready to have the resolution adopted, he hoped he would be quite ready after he (Mr. Morgan) and others had the opportunity to state their opinions on the matter. He should, of course, expect the senator to vote for them.

In the House.

WASHINGTON, March 31.—After some routine business, the house went into committee of the whole on the free wool bill, Mr. Brosius, of Pennsylvania, taking the floor in opposition to the bill.

The house committee on agriculture will report a substitute for the Hatch anti-union bill and similar measure. It is understood the substitutes will be acceptable to the boards of trade. The treasury department will modify its circular regarding free admission of breed horses.

Two Serious Accidents Mar the Occasion.

NORFOLK, March 31.—At least 25,000 people watched the new steel armored cruiser Raleigh glide into the water at the navy yard at 11:35 this morning.

Mrs. Haywood, daughter of Governor Holt of North Carolina, christened the vessel. As the Raleigh moved slowly into the stream amid the cheers and whistles she struck a tow of logs and one of the raftsmen had his leg crushed and was otherwise seriously injured. A shed, on the roof of which a crowd had assembled, broke down at the same time and one man had his leg crushed so as to necessitate amputation, many others were bruised. The launching itself was a great success. Among those present were Secretary Tracey, Governor Holt and staff and many other distinguished visitors.

Interesting at Buenos Ayres.

LONDON, March 31.—A dispatch from Buenos Ayres says that the supporters of Zanes Pava, for the presidency, are carrying this morning a high hand, the anti-Pena agitators are denounced as outlaws and their meetings broken up by violence. It is said that but for the visit of Admiral Walker and his squadron, the European element would have given open expression to their hostility to American influences.

Increased Their Stock.

NEW YORK, March 31.—A special meeting of the stockholders of the Standard Oil Company, held today at the company's office for the purpose of increasing the capital stock from \$5,0
